Audit Highlights
Annual Financial Report
Franklin County, Tennessee
For the Year Ended June 30, 2010

Scope

We have audited the basic financial statements of Franklin County as of and for the year ended June 30, 2010.

Results

Our report on Franklin County's financial statements is unqualified.

Our audit resulted in four findings and recommendations, which we have reviewed with Franklin County management. Detailed findings, recommendations, and management's response are included in the Single Audit section of this report.

Findings and Best Practice

The following are summaries of the audit findings and best practice:

OFFICE OF SUPERINTENDENT OF HIGHWAYS

- ◆ A county road list was not submitted to the County Commission for approval.
-

OFFICE OF DIRECTOR OF SCHOOLS

- ◆ The Extended School Program did not deposit some collections within three days of receipt.
-

OFFICE OF SHERIFF

- ◆ Some collections were not deposited within three days of receipt.
-

OTHER FINDING

- ◆ Duties were not segregated adequately among the officials and employees in the Offices of County Clerk; Circuit, General Sessions, and Juvenile Courts Clerk; Clerk and Master; Register; and Sheriff.
-

BEST PRACTICE

Franklin County does not have an Audit Committee. The Division of County Audit strongly believes that an Audit Committee is a best practice that should be adopted by the governing body to assist the County Commission by providing independent and objective reviews of the financial reporting process, internal controls, the audit function, and being responsible for monitoring management's plans to address various risks.

INDEPENDENT AUDITOR'S REPORT

January 20, 2011

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2010, which collectively comprise Franklin County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Franklin County's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Franklin County Emergency Communications District, which represent 1.27 percent and .89 percent, respectively, of the assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Franklin County Emergency Communications District, is based on the report of other auditors

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the auditing standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as

evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our report and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of June 30, 2010, and the respective changes in financial position thereof for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated January 20, 2010, on our consideration of Franklin County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

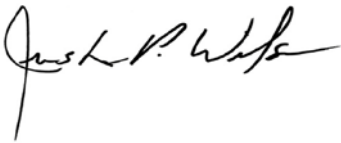

As described in Note V.B., Franklin County has adopted the provisions of Governmental Accounting Standards Board Statement 51, Accounting and Financial Reporting for Intangible Assets; and Statement No. 53, Accounting and Financial Reporting for Derivative Instruments, which became effective for the year ended June 30, 2010.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the budgetary comparison, pension, and other postemployment benefits information on pages 62 through 71 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Franklin County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the Education Debt Service Fund, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), and miscellaneous schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the Education Debt Service Fund, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), and the miscellaneous schedules have been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, in our opinion, based on our audit, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section has not been subjected to the auditing procedures applied by us in the audit of the basic financial statements, and accordingly, we express no opinion on it.

Very truly yours,

Franklin County, Tennessee
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

Net change in fund balances - total governmental funds (Exhibit C-3)		\$ (2,384,718)
<p>(1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows:</p>		
Add: capital assets purchased in the current period	\$ 5,273,294	
Less: current year depreciation expense	<u>(2,189,928)</u>	3,083,366
<p>(2) The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to decrease net assets.</p>		
Add: gain on disposal of capital assets	\$ 3,646	
Less: decrease in revenue for the sale or insurance recovery of disposed assets	<u>(4,476)</u>	(830)
<p>(3) Revenues in the statement of activities that do not provide current financial resources are not reported in the funds.</p>		
Add: deferred delinquent property taxes and other deferred June 30, 2010	\$ 748,061	
Less: deferred delinquent property taxes and other deferred June 30, 2009	<u>(599,522)</u>	148,539
<p>(4) The issuance of long-term debt (e.g., bonds, notes, other loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:</p>		
Less: note proceeds	\$ (822,666)	
Less: capital lease proceeds	(540,342)	
Less: bond proceeds	(1,500,000)	
Less: change in deferred amount on refunding debt	(34,642)	
Add: change in premium on debt issuance	3,687	
Less: change in deferred debt issuance costs	(11,590)	
Add: principal payments on notes	4,295	
Add: principal payments on capital leases	166,661	
Add: principal payments on bonds	<u>3,575,000</u>	840,403
<p>(5) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.</p>

FRANKLIN COUNTY, TENNESSEE
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2010

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Franklin County's financial statements are presented in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments.

The following are the more significant accounting policies of Franklin County:

A. Reporting Entity

Franklin County is a public municipal corporation governed by an elected 16-member board. As required by GAAP, these financial statements present Franklin County (the primary government) and its component units. The component units discussed below are included in the county's reporting entity because of the significance of their operational or financial relationships with the county.

Discretely Presented Component Units – The following entities meet the criteria for discretely presented component units of the county. They are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the county.

The Franklin County School Department operates the public school system in the county, and the voters of Franklin County elect its board. The School Department is fiscally dependent on the county because it may not issue debt without county approval, and its budget and property tax levy are subject to the County Commission's approval. The School Department's taxes are levied under the taxing authority of the county and are included as part of the county's total tax levy.

The Franklin County Emergency Communications District provides a simplified means of securing emergency services through a uniform emergency number for the residents of Franklin County, and the Franklin County Commission appoints its governing body. The district is funded primarily through a service charge levied on telephone services. Before the issuance of most debt instruments, the district must obtain the County Commission's approval.

The Industrial Development Board of Franklin County provides assistance in industrial recruitment in Franklin County, and the Franklin County Commission appoints its nine-member board. During the year ended June 30, 2010, the county appropriated an operating subsidy of \$10,000 to the board, which was substantially all the revenue the board received for the year. Based on the amount of revenue received, the state Comptroller

permitted the board to have a two year audit performed for the period July 1, 2009, through June 30, 2011. Therefore, audited financial statements of the Industrial Development Board of Franklin County were not available for the year ended June 30, 2010, for inclusion in this report. The omission of the financial statement of the Industrial Development Board of Franklin County does not have a material effect on the financial statement of the discretely presented component units of Franklin County.

The Franklin County School Department does not issue separate financial statements from those of the county. Therefore, basic financial statements of the Franklin County School Department are included in this report as listed in the table of contents. Complete financial statements of the Franklin County Industrial Development Board (when available) and the Franklin County Emergency Communications District can be obtained from their administrative offices at the following addresses:

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. However, when applicable, interfund services provided and used between functions are not eliminated in the process of consolidation in the Statement of Activities. Governmental activities are normally supported by taxes and intergovernmental revenues. Business-type activities, which rely to a significant extent on fees and charges, are required to be reported separately from governmental activities in government-wide financial statements. However, the primary government of Franklin County does not have any business-type activities to report. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The Franklin County School Department component unit only reports governmental activities in the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or

directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Franklin County issues all debt for the discretely presented Franklin County School Department. During the year ended June 30, 2010, no debt issues were contributed by the county to the School Department.

Separate financial statements are provided for governmental funds and fiduciary funds. The fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements, except for agency funds, which have no measurement focus. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund financial statements of Franklin County are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental category. Franklin County has no proprietary funds to report.

Separate financial statements are provided for governmental funds and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All other governmental funds are aggregated into a single column on the fund financial statements. The fiduciary funds in total are reported in a single column.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the county considers revenues other than grants to be available if they are collected within 30 days after year-end. Grants and similar items are recognized as revenue as soon

as all eligibility requirements imposed by the provider have been met and the revenues are available. Franklin County considers grants and similar revenues to be available if they are collected within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Principal and interest on long-term debt are recognized as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made early in the following year.

Property taxes for the period levied, in-lieu-of tax payments, sales taxes, interest, and miscellaneous taxes are all considered to be susceptible to accrual and have been recognized as revenues of the current period. Applicable business taxes, litigation taxes, state-shared excise taxes, fines, forfeitures, and penalties are not susceptible to accrual since they are not measurable (reasonably estimable). All other revenue items are considered to be measurable and available only when the county receives cash.

Fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Franklin County reports the following major governmental funds:

General Fund – This is the county’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Special Purpose Fund – This fund accounts for proceeds from the sale of the hospital. This fund was closed into the General Fund during the year.

Highway/Public Works Fund – This fund accounts for transactions of the county’s Highway Department.

Education Debt Service Fund – This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

Other Capital Projects Fund – This fund is used to account for the construction of the county’s judicial center. This fund was closed during the year.

Additionally, Franklin County reports the following fund type:

Agency Funds – These funds account for amounts collected in an agency capacity by the constitutional officers and local sales taxes received from the state to be forwarded to the various cities in the county. Agency funds are custodial in nature (assets equal liabilities)

and do not involve measurement of results of operations. They do, however, use the accrual basis of accounting to recognize receivables and payables.

The discretely presented Franklin County School Department reports the following major governmental funds:

General Purpose School Fund – This fund is the primary operating fund for the School Department. It is used to account for general operations of the School Department.

Education Capital Projects Fund – This fund is used to account for school renovation projects.

Additionally, the Franklin County School Department reports the following fund type:

Special Revenue Funds – These funds account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted revenues first, then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

State statutes authorize the government to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposit accounts at state and federal chartered banks and savings and loan associations; repurchase agreements; the State Treasurer's Investment Pool; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government sponsored enterprises; and the county's own legally issued bonds or notes.

The county trustee maintains a cash and internal investment pool that is used by all funds and the discretely presented Franklin County School Department. Each fund's portion of this pool is displayed on the balance sheets or statements of net assets as Equity in Pooled Cash and Investments. Most income from these pooled investments is assigned to the Solid Waste/Sanitation and General Purpose School funds. Franklin County and the School Department have adopted a policy of reporting U.S. Treasury obligations, U.S. agency obligations, and repurchase agreements with maturities of one year or less when purchased on the balance sheet at amortized cost. Certificates of deposit and investments in the State Treasurer's Investment Pool are reported at cost. The State Treasurer's Investment Pool is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows SEC-registered mutual funds to use amortized cost rather than fair value to report net assets to compute share prices if certain conditions are met. State statutes require the state treasurer to administer the pool under the same terms and conditions, including collateral requirements, as prescribed for other funds invested by the state treasurer. All other investments are reported at fair value. No investments required to be reported at fair value were held at the balance sheet date.

2. Receivables and Payables

Activity between funds for unremitted current collections at the end of the fiscal year is referred to as due to/from other funds.

All property taxes receivable are shown net of an allowance for uncollectibles. The allowance for uncollectible property taxes is equal to two percent of total taxes levied.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

Property taxes receivable are recognized as of the date an enforceable legal claim to the taxable property arises. This date is January 1 and is referred to as the lien date. However, revenues from property taxes are recognized in the period for which the taxes are levied, which is the ensuing fiscal year. Since the receivable is recognized before the period of revenue recognition, the entire amount of the receivable, less an estimated allowance for uncollectible taxes, is reported as deferred revenue as of June 30.

Property taxes receivable are also reported as of June 30 for the taxes that are levied, collected, and reported as revenue during the current fiscal year. These property taxes receivable are presented on the balance sheet with offsetting deferred revenue to reflect amounts not available as of June 30. Property taxes collected within 30 days of year end are considered available and accrued. The allowance for uncollectible taxes represents the estimated amount of the receivable that will be filed in court for collection. Delinquent taxes filed in court for collection are not included in taxes receivable since they are neither measurable nor available.

Property taxes are levied as of the first Monday in October. Taxes become delinquent and begin accumulating interest and penalty the following March 1. Suit must be filed in Chancery Court between the following February 1 to April 1 for any remaining unpaid taxes. Additional costs attach to delinquent taxes after a court suit has been filed.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

4. Capital Assets

Governmental funds do not capitalize the cost of capital outlays; these funds report capital outlays as expenditures upon acquisition.

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 (land and improvements \$25,000; buildings, improvements, and infrastructure \$50,000) or more and an estimated useful life exceeding three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and infrastructure of the primary government and the discretely presented School Department are

depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	25-40
Other Capital Assets	5-20
Infrastructure:	
Roads	20
Bridges	40

5. Compensated Absences

It is the policy of the general government (excluding the Highway Department) to permit its employees to accumulate the following hours of vacation leave based on length of employment:

<u>Years of Service</u>	<u>Hours</u>
one	40
two - eight	80
nine plus	120

Earned but unused vacation leave will be paid to the employee upon retirement, resignation, or termination. On each employee's anniversary date, all vacation leave accumulated in excess of the amount earned each year will be converted to sick leave.

It is the policy of the Highway Department to permit its employees to accumulate the following days of vacation leave based on length of employment:

<u>Years of Service</u>	<u>Days</u>
one	5
two - nine	10
ten plus	15

Earned but unused vacation leave will be paid to the employee upon retirement, resignation, or termination. On each employee's anniversary date, all accumulated vacation leave will be converted to sick leave. All vacation leave is accrued when incurred in the government-wide statements for the general county government. The granting of sick leave has no guaranteed payment attached and therefore is not required to be accrued or recorded.

It is the policy of the discretely presented Franklin County School Department to permit its 11- and 12-month employees to accumulate

up to a maximum of 30 days over a two-year period of earned but unused vacation leave, which will be paid upon retirement, resignation, or termination. Any accumulated unused vacation leave in excess of two years is forfeited. All vacation leave for 11- and 12-month employees is accrued when incurred in the government-wide statements for the School Department. The policy of the School Department does not allow their ten-month employees to accumulate vacation days beyond June 30. The granting of sick leave has no guaranteed payment attached and therefore is not required to be accrued or recorded. A liability for vacation leave is reported in governmental funds only if amounts have matured, for example, as a result of employee resignations and retirements.

6. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Assets. Debt premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the debt using the straight-line method. Debt issuance costs are reported as deferred charges and amortized over the term of the related debt. In refunding transactions, the difference between the reacquisition price and the net carrying amount of the old debt is netted against the new debt and amortized over the remaining life of the refunded debt or the life of the new debt issued, whichever is shorter.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Only the matured portion (the portion that has come due for payment) of long-term indebtedness, including bonds payable, is recognized as a liability and expenditure in the governmental fund financial statements. Liabilities and expenditures for other long-term obligations, including compensated absences and landfill closure and postclosure cost, are recognized to the extent that the liabilities have matured (come due for payment) each period.

7. Net Assets and Fund Equity

In the government-wide financial statements, equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definition of restricted or invested in capital assets, net of related debt.

On the government-wide Statement of Net Assets (Exhibit A), the account Restricted for General Purposes for the primary government consists of various restrictions totaling \$6,353,681, with the primary restrictions being for: (1) proceeds from the sale of the hospital totaling \$5,745,000; and (2) proceeds of prior-year sales of land and buildings to be used for future land purchases totaling \$608,681.

As of June 30, 2010, Franklin County has \$25,850,000 in outstanding debt for capital purposes for the discretely presented Franklin County School Department. This debt is a liability of Franklin County; however, the capital assets acquired are reported in the financial statements of the School Department. Therefore, Franklin County has incurred a liability significantly decreasing its unrestricted net assets with no corresponding increase in the county's capital assets.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

8. Prior-period Adjustment

Discretely Presented Franklin County School Department

Noncurrent liabilities of the discretely presented Franklin County School Department were restated \$1,291,643 from the prior year because the liability for other postemployment benefits was overstated.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for all governmental funds except the Constitutional Officers - Fees Fund (special revenue fund) which is not budgeted, and the capital projects funds, which adopt project length budgets. All annual appropriations lapse at fiscal year end.

The county is required by state statute to adopt annual budgets. Annual budgets are prepared on the basis in which current available funds must be sufficient to meet current expenditures. Expenditures and encumbrances

may not legally exceed appropriations authorized by the County Commission and any authorized revisions. Unencumbered appropriations lapse at the end of each fiscal year.

The budgetary level of control is at the major category level established by the County Uniform Chart of Accounts, as prescribed by the Comptroller of the Treasury of the State of Tennessee. Major categories are at the department level (examples of General Fund major categories: County Commission, Board of Equalization, County Mayor/Executive, County Attorney, etc.). Management may make revisions within major categories, but only the County Commission may transfer appropriations between major categories. During the year, several supplementary appropriations were necessary.

The county's budgetary basis of accounting is consistent with GAAP, except instances in which encumbrances are treated as budgeted expenditures. The difference between the budgetary basis and GAAP basis is presented on the face of each budgetary schedule.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Franklin County and the Franklin County School Department participate in an internal cash and investment pool through the Office of Trustee. The county trustee is the treasurer of the county and in this capacity is responsible for receiving, disbursing, depositing, and investing most county funds. Each fund's portion of this pool is displayed on the balance sheets or Statements of Net Assets as Equity in Pooled Cash and Investments. Cash reflected in the fund financial statements represents nonpooled amounts held separately by individual funds.

Deposits

Legal Provisions. All deposits with financial institutions must be secured by one of two methods. One method involves financial institutions that participate in the bank collateral pool administered by the state treasurer. Participating banks determine the aggregate balance of their public fund accounts for the State of Tennessee and its political subdivisions. The amount of collateral required to secure these public deposits must equal at least 105 percent of the average daily balance of public deposits held. Collateral securities required to be pledged by the participating banks to protect their public fund accounts are pledged to the state treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

For deposits with financial institutions that do not participate in the bank collateral pool, state statutes require that all deposits be collateralized with collateral whose market value is equal to 105 percent of the uninsured amount of the deposits. The collateral must be placed by the depository bank in an escrow account in a second bank for the benefit of the county.

Investments

Legal Provisions. Counties are authorized to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposits at state and federal chartered banks and savings and loan associations; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government sponsored enterprises; and the county’s own legally issued bonds or notes. These investments may not have a maturity greater than two years. The county may make investments with longer maturities if various restrictions set out in state law are followed. Counties are also authorized to make investments in the State Treasurer’s Investment Pool and in repurchase agreements. Repurchase agreements must be approved by the state Comptroller’s Office and executed in accordance with procedures established by the State Funding Board. Securities purchased under a repurchase agreement must be obligations of the U.S. government or obligations guaranteed by the U.S. government or any of its agencies. When repurchase agreements are executed, the purchase of the securities must be priced at least two percent below the fair value of the securities on the day of purchase.

Investment Balances. As of June 30, 2010, Franklin County had the following investments carried at cost. All investments are in the county trustee’s investment pool. Separate disclosures concerning pooled investments cannot be made for Franklin County and the discretely presented Franklin County School Department since both pool their deposits and investments through the county trustee.

Investment	Maturities	Cost
State Treasurer's Investment Pool	Daily	\$ 58,136

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State statutes limit the maturities of certain investments as previously disclosed. Franklin County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State statutes limit the ratings of certain investments as previously explained. Franklin County has no

investment policy that would further limit its investment choices. As of June 30, 2010, Franklin County's investment in the State Treasurer's Investment Pool was unrated.

C. Insurance Recovery

Primary Government

During the year, Franklin County had damage to a vehicle. Insurance recovery of \$308 was used to repair the damage.

Discretely Presented Franklin County School Department

During the year, the School Department had damage to a roof, an awning, and a baseball field. Insurance recoveries of \$295,368 were used to repair the damage.

D. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of June 30, 2010, is as follows:

Due to/from Other Funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Primary Government:		
General	Nonmajor governmental	\$ 2,168
Highway/Public Works	General	2,196

These balances resulted from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made.

Interfund Transfers:

Interfund transfers for the year ended June 30, 2010, consisted of the following amounts:

Primary Government

Transfers Out	Transfers In		
	General Fund	Highway/ Public Works Fund	Nonmajor Governmental Funds
General Fund	\$ 0	\$ 9,642	\$ 200,000
Special Purpose Fund	5,745,000	0	0

Nonmajor governmental funds	21,751	0	40,000
Total	\$ 5,770,554	\$ 9,642	\$ 640,000

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

E. Operating Leases

Franklin County leases data processing equipment for the Finance Department and Trustee's Office, such as computers, including the maintenance and upgrades for that equipment. The rent expenditures for the year ended June 30, 2010, totaled \$36,487. The county may terminate the lease agreement at the end of a fiscal year by giving notice to the lessor at least 60 days prior to the first day of the fiscal year in which appropriations will not be made. There are no provisions for contingent or sublease rentals in the agreements. The future minimum lease payments for these leases are as follows:

Year Ending June 30	Amount
2011	\$ 36,487

G. Long-term Debt

Primary Government

General Obligation Bonds and Notes

The county issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In addition, general obligation bonds have been issued to refund other general obligation bonds. Capital outlay notes are also issued to fund capital facilities and other capital outlay purchases, such as equipment.

General obligation bonds and capital outlay notes are direct obligations and pledge the full faith and credit of the government. General obligation bonds and the capital outlay note outstanding were issued for original terms of up to 40 years for bonds and 12 years for the note. Repayment terms are generally structured with increasing amounts of principal maturing as interest requirements decrease over the term of the debt. Bonds will be retired from the General Debt Service and Education Debt Service funds and the note will be retired from the General Debt Service Fund.

General obligation bonds, the note, and capital leases outstanding as of June 30, 2010, for governmental activities are as follows:

<u>Type</u>	<u>Interest Rate</u>	<u>Original Amount of Issue</u>	<u>Balance 6-30-10</u>

Discretely Presented Franklin County School Department

Notes

Franklin County issues capital outlay notes for the School Department to fund capital facilities and other capital outlay purchases, such as equipment.

Capital outlay notes are direct obligations and pledge the full faith and credit of the government. The capital outlay note was issued for an original term of six years. Repayment terms are generally structured with increasing amounts of principal maturing as interest requirements decrease over the term of the debt. The note will be retired from the General Purpose School Fund.

The capital outlay note outstanding as of June 30, 2010, for governmental activities is as follows:

Type	Interest Rate	Original Amount of Issue	Balance 6-30-10

H. On-Behalf Payments – Discretely Presented Franklin County School Department

The State of Tennessee pays health insurance premiums for retired teachers on-behalf of the Franklin County School Department. These payments are made by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan. Both of these plans are administered by the State of Tennessee and reported in the state's Comprehensive Annual Financial Report. Payments by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan for the year ended June 30, 2010, were \$85,761 and \$34,928, respectively. The School Department has recognized these on-behalf payments as revenues and expenditures in the General Purpose School Fund.

I. Short-term Debt

Primary Government

Franklin County issued tax anticipation notes of \$750,000 from the Education Debt Service Fund in advance of property tax collections and

deposited the proceeds in the General Fund. Also, Franklin County issued bond anticipation notes of \$1,500,000 from the Education Debt Service Fund in advance of issuing bonds and deposited the proceeds in the Other Capital Projects Fund. These notes were necessary because funds were not available to meet obligations before current tax collections and the issuance of debt. Short-term debt activity for the year ended June 30, 2010, was as follows:

V. OTHER INFORMATION

A. Risk Management

Franklin County’s and the discretely presented Franklin County School Department’s risks of loss relating to general liability, property, and casualty are covered by participation in a public entity risk pool. The county and the School Department are members of the Tennessee Risk Management Trust (TN-RMT), which is a public entity risk pool created under the auspices of the Tennessee Governmental Tort Liability Act to provide governmental insurance coverage. The county and School Department pay annual premiums to the TN-RMT for their general liability, property, and casualty coverage. The creation of the TN-RMT provides for it to be self-sustaining through member premiums.

The county carries commercial insurance for risks of loss relating to workers’ compensation. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. The county does not insure against environmental claims or losses.

Franklin County provides health insurance coverage to their employees through the Local Government Group Insurance Fund (LGGIF), a public entity risk pool established to provide a program of health insurance coverage for employees of local governments and quasi-governmental entities that was established for the primary purpose of providing services for or on behalf of state and local governments. In accordance with Section 8-27-207, Tennessee Code Annotated (TCA), all local governments and quasi-governmental entities described above are eligible to participate. The LGGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by the fund. The state statute provides for the LGGIF to be self-sustaining through member premiums.

The discretely presented School Department's risks of loss relating to workers' compensation are covered by participation in a public entity risk pool. The School Department is a member of the Tennessee Risk Management Trust (TN-RMT), which is a public entity risk pool created under the auspices of the Tennessee Governmental Tort Liability Act to provide governmental insurance coverage. The School Department pays annual premiums to the TN-RMT for its workers' compensation coverage. The creation of the TN-RMT provides for it to be self-sustaining through member premiums.

The discretely presented School Department participates in the Local Education Group Insurance Fund (LEGIF), a public entity risk pool established to provide a program of health insurance coverage for employees of local education agencies. In accordance with Section 8-27-301, TCA, all local education agencies are eligible to participate. The LEGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by this fund. Section 8-27-303, TCA, provides for the LEGIF to be self-sustaining through member premiums.

B. Accounting Changes

Provisions of Governmental Accounting Standards Board (GASB) Statement No. 51, Accounting and Financial Reporting for Intangible Assets; and Statement No. 53, Accounting and Financial Reporting for Derivative Instruments became effective for the year ended June 30, 2010.

GASB Statement No. 51 establishes accounting and financial reporting requirements for intangible assets. Intangible assets have three characteristics: lack of physical substance; nonfinancial in nature; and a useful life that extends beyond a single reporting period. Assets that have these characteristics and are identifiable to the government should be recorded as capital assets and amortized over their useful lives. Easements, water rights, patents, and computer software are examples of intangible assets that should be recognized under GASB Statement No. 51. Franklin County and the Franklin County School Department had no assets that met the definition of intangible assets at June 30, 2010. However, it is reasonably

expected that Franklin County and the School Department may acquire intangible assets in subsequent years.

GASB Statement No. 53 addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by county governments. Derivative instruments are financial arrangements used by governments as investments; hedges against identified financial risks; or to lower the costs of borrowings. Interest rate swaps and locks, options, swaptions, forward contracts, and futures contracts are among the commonly used types of derivatives mentioned in GASB Statement No. 53. Derivative instruments associated with fluctuating financial and commodity prices result in changing cash flows and fair values that can be used as effective risk management or investment tools. For the same reasons, derivative instruments can expose governments to significant risks and liabilities. The requirements of GASB Statement No. 53 are intended to help users of financial information evaluate the effectiveness and associated risks involved with Franklin County's derivative transactions. GASB Statement No. 53 requires most derivatives to be reported at fair value in the Statement of Net Assets. Changes in fair value for derivative instruments that are intended for investment purposes or that are reported like investment derivative instruments because of ineffectiveness are reported as investment revenues in the Statement of Activities. Alternatively, the changes in fair value of derivative instruments that are classified as hedging (i.e., effective) derivative instruments are reported in the Statement of Net Assets as deferrals. Franklin County had not participated in derivative transactions as of June 30, 2010. However, it is reasonably expected that Franklin County may enter into derivative transactions in subsequent years.

C. Subsequent Events

On August 17, 2010, Franklin County entered into two lease-purchase agreements for \$500,000 and \$385,152, for energy efficient lighting programs for school buildings. Also, on August 17, 2011, Franklin County entered into a lease-purchase agreement for approximately \$582,000 for energy efficient lighting programs for school buildings. The final amount will not be determined until the projects are complete subsequent to the date of this report.

On August 31, 2010, Nina Tucker left the Office of County Clerk and was succeeded by Phillip Custer, and Nancy Silvertooth left the Office of Circuit, General Sessions, and Juvenile Courts Clerk and was succeeded by Robert Baggett.

On December 6, 2010, Franklin County entered into a lease-purchase agreement for \$308,473 for an energy efficient lighting program for county buildings.

D. Contingent Liabilities

The county is involved in two pending lawsuits. Attorneys representing the county estimate that the potential claims against the county not covered by insurance resulting from such litigation would not materially affect the financial statements of the county.

E. Landfill Postclosure Care Costs

Franklin County has an active permit on file with the state Department of Environment and Conservation for a sanitary landfill. The county has provided financial assurances for estimated postclosure liabilities as required by the State of Tennessee. These financial assurances are on file with the Department of Environment and Conservation.

State and federal laws and regulations require the county to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the county reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. Franklin County closed its sanitary landfill in 1995. The \$337,490 reported as landfill postclosure care liability at June 30, 2010, represents amounts based on what it would cost to perform all postclosure care in 2010. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

F. Joint Ventures

The Interlocal Solid Waste Authority is jointly operated by the counties of Giles, Franklin, and Lincoln and the municipality of Tullahoma for the purpose of developing a solid waste regional plan. The authority's board was appointed by each participating County Commission or City Council for varying terms of office. Franklin County made no contributions to the authority for the year ended June 30, 2010.

The Twelfth Judicial District Drug Task Force (DTF) is a joint venture formed by an interlocal agreement between the district attorney general of the Twelfth Judicial District; Bledsoe, Franklin, Marion, Rhea, and Sequatchie counties; and various cities within these counties. The purpose of the DTF is to provide multi-jurisdictional law enforcement to promote the investigation and prosecution of drug-related activities. Funds for the operations of the DTF come primarily from federal grants, drug fines, and the forfeiture of drug-related assets to the DTF. The DTF is overseen by the district attorney general and is governed by a board of directors comprised of the district attorney general, sheriffs, and police chiefs of the participating law enforcement agencies within the judicial district. Franklin County made no contributions to the DTF for the year ended June 30, 2010.

Franklin County does not have equity interests in any of the above-noted joint ventures. Complete financial statements for the Interlocal Solid Waste Authority and the Twelfth Judicial District Drug Task Force can be obtained from their administrative offices at the following addresses:

G. Retirement Commitments

Employees

Plan Description

Employees of Franklin County are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the system after July 1, 1979, become vested after five years of service, and members joining prior to July 1, 1979, were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37 of Tennessee Code Annotated. State statutes are amended by the Tennessee General Assembly. Political subdivisions such as Franklin County participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor, Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at www.tn.gov/treasury/tcrs/PS.

Funding Policy

Franklin County has adopted a noncontributory retirement plan for its employees by assuming employee contributions up to five percent of annual covered payroll. The county is required to contribute at an actuarially determined rate; the rate for the fiscal year ended June 30, 2010, was 11.71 percent of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for Franklin County is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ended June 30, 2010, Franklin County's annual pension cost of \$1,491,824 to TCRS was equal to the county's required and actual contributions. The required contribution was determined as part of the July 1, 2007, actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (c) projected 3.5 percent annual increase in the Social Security wage base, and (d) projected post retirement increases of three percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a five-year period. Franklin County's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2007, was 18 years. An actuarial valuation was performed as of July 1, 2009, which established contribution rates effective July 1, 2010.

Trend Information

Fiscal Year Ended	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
6-30-10	\$1,491,824	100%	\$0
6-30-09	1,485,490	100	0
6-30-08	1,437,286	100	0

Funded Status and Funding Progress

As of July 1, 2009, the most recent actuarial valuation date, the plan was 80.28 percent funded. The actuarial accrued liability for benefits was \$28.63 million, and the actuarial value of assets was \$22.99 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$5.65 million. The covered payroll (annual payroll of active employees covered by the plan) was

\$12.41 million, and the ratio of the UAAL to the covered payroll was 45.51 percent.

The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The TCRS uses the frozen entry age cost method to calculate the annual required contribution. Effective July 1, 2009, the TCRS reestablished the unfunded accrued liabilities for all groups.

School Teachers

Plan Description

The Franklin County School Department contributes to the State Employees, Teachers, and Higher Education Employees Pension Plan (SETHEEPP), a cost-sharing multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits to plan members and their beneficiaries. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members who are at least 55 years of age or have 25 years of service. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the plan on or after July 1, 1979, are vested after five years of service. Members joining prior to July 1, 1979, are vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37 of Tennessee Code Annotated. State statutes are amended by the Tennessee General Assembly. A cost of living adjustment (COLA) is provided to retirees each July based on the percentage change in the Consumer Price Index (CPI) during the previous calendar year. No COLA is granted if the CPI increases less than one-half percent. The annual COLA is capped at three percent.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the SETHEEPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor, Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at www.tn.gov/treasury/tcrs/Schools.

Funding Policy

Most teachers are required by state statute to contribute five percent of their salaries to the plan. The employer contribution rate for the Franklin County School Department is established at an actuarially determined rate. The employer rate for the fiscal year ending June 30, 2010, was 6.42 percent of annual covered payroll. The employer contribution requirement for the Franklin County School Department is established and may be amended by the TCRS Board of Trustees. The employer's contributions to TCRS for the years ended June 30, 2010, 2009, and 2008, were \$1,337,867, \$1,373,314, and \$1,312,863, respectively, equal to the required contributions for each year.

H. Other Postemployment Benefits (OPEB)

Plan Description

Franklin County and the Franklin County School Department participate in the state-administered Local Government Group Insurance Plan and the Local Education Group Insurance Plan for healthcare benefits. For accounting purposes, the plans are agent multiple-employer defined benefit OPEB plans. Benefits are established and amended by an insurance committee created by Section 8-27-207, Tennessee Code Annotated (TCA), for local governments and Section 8-27-302, TCA, for teachers. Prior to reaching the age of 65, all members have the option of choosing a preferred provider organization (PPO), point of service (POS), or health maintenance organization (HMO) plan for healthcare benefits. Subsequent to age 65, members who are also in the state's retirement system may participate in a state-administered Medicare Supplement Plan that does not include pharmacy. The plans are reported in the State of Tennessee Comprehensive Annual Financial Report (CAFR). The CAFR is available on the state's website at <http://tn.gov/finance/act/cafr.html>.

Funding Policy

The premium requirements of plan members are established and may be amended by the insurance committee. The plan is self-insured and financed on a pay-as-you-go basis with the risk shared equally among the participants. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. The employer in the plan develops a contribution policy in terms of subsidizing active employees or retired employees' premiums since the committee is not prescriptive on that issue. The state does not provide a subsidy for local government participants; however, the state does provide a partial subsidy to Local Education Agency pre-65 teachers and a full subsidy based on years of service for post-65 teachers in the Medicare Supplement Plan. Currently, the required contribution rate for retirees is ten percent of the single premium. During the year ended June 30, 2010, the county and the discretely presented

School Department contributed \$33,665 and \$425,577, respectively, for postemployment benefits.

Funded Status and Funding Progress

The funded status of the plan as of June 30, 2010, was as follows:

	Local Education Group Plan	Local Government Group Plan
Actuarial valuation date	7-1-09	7-1-09
Actuarial accrued liability (AAL)	\$ 9,728,000	\$ 3,265,000

Covered payroll (active plan members)	\$ 20,919,797	\$ 6,590,645
UAAL as a % of covered payroll	46.5%	49.54%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In the July 1, 2009, actuarial valuation, the projected unit credit actuarial cost method was used and the actuarial assumptions included a 4.5 percent investment rate of return (net of administrative expenses). The annual healthcare cost trend rate for the Local Education Group Plan was four percent for fiscal year 2010. The trend will rise to ten percent in fiscal year 2011 and then will be reduced by decrements to an ultimate rate of five percent by fiscal year 2021. The annual health care cost trend rate for the Local Government Group Plan was three percent for fiscal year 2010. The trend will rise to ten percent in fiscal year 2011 and then will be reduced by decrements to an ultimate rate of five percent by fiscal year 2021. The

unfunded actuarial accrued liability is being amortized as a level percentage of payroll on a closed basis over a 30-year period beginning with June 30, 2008.

I. Office of Central Accounting and Budgeting

Office of Director of Finance

Franklin County operates under the County Financial Management System of 1981. This act provides for a central system of accounting, budgeting, and purchasing for all county departments. The act provides for the creation of a Finance Department operated under the direction of the finance director.

K. Purchasing Law

The County Financial Management System of 1981 provides for the finance director or a deputy appointed by her to serve as the county purchasing agent. The finance director serves as the purchasing agent for Franklin County. All purchase orders are issued by the Finance Department. Purchases exceeding \$10,000 for the Office of County Executive, the discretely presented School Department, and the Office of Highway Superintendent are required to be competitively bid.

VI. OTHER NOTES – DISCRETELY PRESENTED FRANKLIN COUNTY EMERGENCY COMMUNICATIONS DISTRICT

A. Summary of Significant Accounting Policies

Business Activities

The Franklin County Emergency Communications District provides funds and support to procure, lease, and maintain necessary equipment and services related to fielding emergency phone calls in Franklin County.

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, as well as the reported revenues and expenses. Actual results could vary from the estimates that were used.

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the Franklin County Emergency Communications District. Legally, the district is a separate governmental entity that has considerable legal, financial, and administrative autonomy. However, as the governing board is not elected but is entirely appointed by the county, the district cannot be a primary government. Instead, it qualifies as a component unit of Franklin County, Tennessee (the primary government).

Three board members of the district are appointed by the Franklin County mayor and confirmed by the Franklin County Commission each year to serve four-year terms. The district must obtain County Commission approval before the issuance of most debt. The district is primarily funded by user charges.

The district's reports are prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual method of accounting, revenues are recorded when earned, and expenses are reported when incurred. The district applies all Governmental Accounting Standards Board (GASB) pronouncements as well as Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

Cash Deposits

The district is authorized to invest in the following types of securities and indebtedness, in accordance with governing statutes:

- (1) Bonds, notes, treasury bills, or similar types of indebtedness to the United States.
- (2) Non-convertible debt including Federal Home Loan Bank, Federal National Mortgage Association, Federal Farm Credit Bank, and Student Loan Marketing Association.
- (3) Other obligations not specified above, which provide guaranteed principal and interest by the United States or any of its agencies.
- (4) Repurchase agreements, which involve obligations of the United States or its agencies, provided the term of the repurchase agreement does not extend beyond the maturity date of the obligation, and the market value of the security exceeds the cost of the security.
- (5) Money market funds invested in any of the aforementioned securities.

The district's deposits at year-end were entirely covered by federal depository insurance or by collateral held by the district's custodial bank in the district's name. The carrying amount of total cash deposits for the year ended June 30, 2010, was \$764,036. The amount of deposits collateralized with securities held by pledging financial institutions and federal depository insurance was \$764,036.

Utility Plant

Equipment and property additions are recorded at cost. Depreciation is calculated using the straight-line method over the estimated useful life. The

district estimates the useful life of its equipment to be ten years as well as five years for general office equipment.

Cash Flow

For purposes of the Statement of Cash Flows, the district considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Budgetary Data

Formal budgetary accounting is employed as a management control for all funds of the district. Annual operating budgets are adopted each fiscal year through the passage of an annual budget ordinance and amended as required for the proprietary funds. The same basis of accounting is used to reflect actual revenues and expenditures/expenses recognized on a generally accepted accounting principles basis. Budgetary control is exercised at the departmental level. All unencumbered budget appropriations, except project budgets, lapse at the end of each fiscal year.

B. Utility Plant

A summary of changes in the utility plant is as follows:

	Balance 7-1-09	Additions	Deletions	Balance 6-30-10
Equipment	\$ 82,803	\$ 0	\$ 0	\$ 82,803
Less: Accumulated Depreciation	(41,438)	(7,987)	0	(49,425)
Total	\$ 41,365	\$ (7,987)	\$ 0	\$ 33,378

C. Cash Flow

At June 30, 2010, total cash was \$764,036, of which \$299,074 is held in certificates of deposit with maturities of more than three months, leaving \$464,962 considered as cash equivalents.

D. Budgeting Procedures

The official budget for June 30, 2010, was prepared for adoption for the proprietary fund by June 15, 2009.

E. Exposure

The district is included under the county coverage for the risks of losses to which it is exposed. These risks include general liability, property, and casualty. Settlement claims have not exceeded coverage in the past three years, and currently, there are no pending lawsuits.

F. Grants and Reimbursements

The district received a dispatcher training grant totaling \$16,000 during the year from the Tennessee Emergency Communications Board.

FRANKLIN COUNTY, TENNESSEE
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2010

BUDGETARY INFORMATION

The county is required by state statute to adopt annual budgets. Annual budgets are prepared on the basis in which current available funds must be sufficient to meet current expenditures. Expenditures and encumbrances may not legally exceed appropriations authorized by the Franklin County Commission and any authorized revisions. Unencumbered appropriations lapse at the end of each fiscal year.

The budgetary level of control is at the major category level established by the County Uniform Chart of Accounts, as prescribed by the Comptroller of the Treasury of the State of Tennessee. Major categories are at the department level (examples of General Fund major categories: County Commission, Board of Equalization, County Mayor/Executive, County Attorney, etc.). Management may make revisions within major categories, but only the Franklin County Commission may transfer appropriations between major categories. During the year, several supplementary appropriations were necessary.

The county's budgetary basis of accounting is consistent with generally accepted accounting principles (GAAP), except instances in which encumbrances are treated as budgeted expenditures. The difference between the budgetary basis and the GAAP basis is presented on the face of each budgetary schedule.

**COMBINING AND INDIVIDUAL FUND
FINANCIAL STATEMENTS AND SCHEDULES**

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes.

Courthouse and Jail Maintenance Fund – The Courthouse and Jail Maintenance Fund is used to account for a special tax levied by private act on litigation and the recording of certain instruments. The proceeds of the tax must be used to pay for improvements or maintenance on the courthouse and jail. This fund was closed during the year.

Public Library Fund – The Public Library Fund is used to account for transactions for the Franklin County Public Library.

Solid Waste/Sanitation Fund – The Solid Waste/Sanitation Fund accounts for transactions involving solid waste collection.

Local Purpose Tax Fund – The Local Purpose Tax Fund is used to account for a special property tax levied to provide funding for rural fire protection.

Drug Control Fund – The Drug Control Fund is used to account for revenues received from drug-related fines, forfeitures, and seizures.

Constitutional Officers - Fees Fund – The Constitutional Officers - Fees Fund is used to account for operating expenses paid directly from the fee and commission accounts of the trustee, clerks, register, and sheriff.

Debt Service Fund

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs.

General Debt Service Fund – The General Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs of the general government.

Fiduciary Funds

Agency Funds are used to account for assets held by the county in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Cities - Sales Tax Fund – The Cities - Sales Tax Fund is used to account for the second half of the sales tax revenues collected inside incorporated cities of the county. These revenues are received by the county from the State of Tennessee and forwarded to the various cities on a monthly basis.

Constitutional Officers - Agency Fund – The Constitutional Officers - Agency Fund is used to account for amounts collected in an agency capacity by the county clerk; circuit, general sessions, and juvenile courts clerk; clerk and master; register; and sheriff. Such collections include amounts due the state, cities, other county funds, litigants, heirs, and others.

Franklin County School Department

This section presents combining and individual fund financial statements for the Franklin County School Department, a discretely presented component unit. The Franklin County School Department uses a General Fund, two Special Revenue Funds, and a Capital Projects Fund.

General Purpose School Fund – The General Purpose School Fund is used to account for general operations of the School Department.

School Federal Projects Fund – The School Federal Projects Fund is used to account for restricted federal revenues, which must be expended on specific education programs.

Central Cafeteria Fund – The Central Cafeteria Fund is used to account for the cafeteria operations in each of the schools.

Education Capital Projects Fund – The Education Capital Projects Fund is used to account for building construction and renovations of the School Department.

Franklin County, Tennessee
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
Discretely Presented Franklin County School Department
For the Year Ended June 30, 2010

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

Net change in fund balances - total governmental funds (Exhibit I-4)		\$ (1,787,417)
(1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows:		
Add: capital assets purchased in the current period	\$ 1,981,863	
Less: current year depreciation expense	<u>(1,974,495)</u>	7,368
(2) Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Add: deferred delinquent property taxes and other deferred June 30, 2010	\$ 708,349	
Less: deferred delinquent property taxes and other deferred June 30, 2009	<u>(643,771)</u>	64,578
(3) The issuance of long-term debt (e.g., notes and capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the effect of these differences in the treatment of long-term debt and related items:		
Add: principal payments on note	\$ 25,000	
Add: principal payments on capital lease	<u>20,011</u>	45,011
(4) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.		
Change in compensated absences payable	\$ (10,295)	
Change in other postemployment benefits liability	(783,491)	
Change in accrued interest payable	<u>118</u>	<u>(793,668)</u>

REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

January 20, 2011

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2010, which collectively comprise Franklin County's basic financial statements and have issued our report thereon dated January 20, 2011. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the auditing standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the Franklin County Emergency Communications District, a discretely presented component unit, as described in our report on Franklin County's financial statements. This report does not include the results of the other auditors testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Franklin County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing

an opinion on the effectiveness of Franklin County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Franklin County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified a certain deficiency in internal control over financial reporting, described in the accompanying Schedule of Findings and Questioned Costs that we consider to be a significant deficiency in internal control over financial reporting: 10.04. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

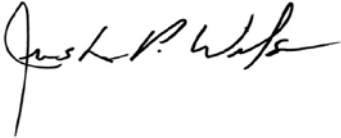

As part of obtaining reasonable assurance about whether Franklin County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and are described in the accompanying Schedule of Findings and Questioned Costs as items: 10.01, 10.02, and 10.03.

We also noted certain matters that we reported to management of Franklin County in separate communications.

Franklin County's response to a best practice identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Franklin County's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of management, the county mayor, County Commission, superintendent of highways, director of schools, Board of Education, others within Franklin County, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

January 20, 2011

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the Franklin County Mayor and Board of County Commissioners:

Compliance

We have audited the compliance of Franklin County with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2010. Franklin County's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Franklin County's management. Our responsibility is to express an opinion on Franklin County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Franklin County's compliance with those requirements and

performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Franklin County's compliance with those requirements.

In our opinion, Franklin County complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of Franklin County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Franklin County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Franklin County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

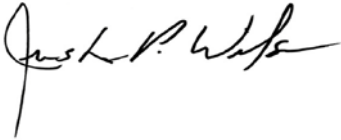

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County as of and for the year ended June 30, 2010, and have issued our report thereon dated January 20, 2011. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise Franklin County's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Franklin County's response to a best practice identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. We did not audit Franklin County's response and, accordingly, we express no opinion on the response.

This report is intended solely for the information and use of management, the county mayor, County Commission, superintendent of highways, director of schools, Board of Education, others within Franklin County, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Yours very truly,

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended June 30, 2010

PART I, SUMMARY OF AUDITOR'S RESULTS

1. Our report on the financial statements of Franklin County is unqualified.
2. The audit of the financial statements of Franklin County disclosed one significant deficiency in internal control. This deficiency was not considered to be a material weakness.
3. The audit disclosed no instances of noncompliance that were material to the financial statements of Franklin County.
4. The audit disclosed no significant deficiencies in internal control over major programs.
5. An unqualified opinion was issued on compliance for major programs.
6. The audit revealed no findings that are required to be reported under Section 510(a) of OMB Circular A-133.
7. The Child Nutrition Cluster: School Breakfast Program and National School Lunch Program (CFDA Nos. 10.553 and 10.555); the Title I Cluster: Title I Grants to Local Educational Agencies and Title I Grants to Local Educational Agencies, Recovery Act (CFDA Nos. 84.010 and 84.389); the Special Education Cluster: Special Education – Grants to States, Special Education – Preschool Grants, Special Education – Grants to States, and Recovery Act, Special Education – Preschool Grants, Recovery Act (CFDA Nos. 84.027, 84.173, 84.391, and 84.392); and the State Fiscal Stabilization Cluster: State Fiscal Stabilization Funds (SFSF) – Education State Grants, Recovery Act and State Fiscal Stabilization Funds (SFSF) – Governmental Services, Recovery Act (CFDA Nos. 84.394 and 84.397) were determined to be major programs.
8. A \$300,000 threshold was used to distinguish between Type A and Type B federal programs.
9. Franklin County did not qualify as a low-risk auditee.

PART II, FINDINGS RELATING TO THE FINANCIAL STATEMENTS

Findings and recommendations, as a result of our examination, are presented below. We reviewed these findings and recommendations with management to provide an opportunity for their response. The finance director provided a written response to the best practice, which is paraphrased in this report.

OFFICE OF SUPERINTENDENT OF HIGHWAYS

FINDING 10.01 A COUNTY ROAD LIST WAS NOT SUBMITTED TO THE COUNTY COMMISSION FOR APPROVAL
(Noncompliance Under Government Auditing Standards)

A summary of changes in the county road list from the prior year was submitted to the County Commission for approval; however, a list of all county roads was not submitted. Section 54-10-103, Tennessee Code Annotated, requires the superintendent of highways to submit a list of county roads to the County Commission for approval at the January session each year. This list must include the classification, width and distance of each county-maintained road, as well as a summary of changes from the prior year that provides the road name, date the change was approved by the County Commission, and the reason for the change. Highway Department officials need a current approved list of county roads to determine which roads the department is authorized to work.

RECOMMENDATION

The superintendent of highways should submit to the County Commission a list of county roads that includes the classification, width and distance of each road, and a summary of changes as required by state statute.

OFFICE OF DIRECTOR OF SCHOOLS

FINDING 10.02 THE EXTENDED SCHOOL PROGRAM DID NOT DEPOSIT SOME COLLECTIONS WITHIN THREE DAYS OF RECEIPT
(Noncompliance Under Government Auditing Standards)

In some instances, collections of the Extended School Program were not deposited with the county trustee within three days of receipt. Section 5-8-207, Tennessee Code Annotated, requires county officials to deposit public funds within three days of receiving the funds. This deficiency is the result of management's decisions and their failure to correct the finding noted in the prior-year audit report. The failure to make timely deposits increases the risks of fraud and abuse.

RECOMMENDATION

The Extended School Program should deposit all funds with the county trustee within three days of collection as required by state statute.

OFFICE OF SHERIFF

FINDING 10.03 **SOME COLLECTIONS WERE NOT DEPOSITED WITHIN THREE DAYS OF RECEIPT
(Noncompliance Under Government Auditing Standards)**

In some instances, collections were not deposited to the office bank account within three days of receipt. Section 5-8-207, Tennessee Code Annotated, requires county officials to deposit public funds within three days of receiving the funds. This deficiency is the result of a lack of oversight and is a deficiency in internal controls that increases the risks of fraud and abuse.

RECOMMENDATION

The sheriff should ensure that all funds are deposited to the office bank account within three days of collection as required by state statute.

OTHER FINDING AND RECOMMENDATION

FINDING 10.04 **DUTIES WERE NOT SEGREGATED ADEQUATELY IN THE OFFICES OF COUNTY CLERK; CIRCUIT, GENERAL SESSIONS, AND JUVENILE COURTS CLERK; CLERK AND MASTER; REGISTER; AND SHERIFF
(Internal Control – Significant Deficiency Under Government Auditing Standards)**

Duties were not segregated adequately among the officials and employees in the Offices of County Clerk; Circuit, General Sessions, and Juvenile Courts Clerk; Clerk and Master; Register; and Sheriff. The officials and employees responsible for maintaining accounting records were also involved in receipting, depositing, and/or disbursing funds. Accounting standards provide that internal controls be designed to give reasonable assurance of the reliability of financial reporting and of the effectiveness and efficiency of operations. This lack of segregation of duties is the result of management's decisions based on the availability of financial resources and is a significant deficiency in internal controls that increases the risk of unauthorized transactions. Also, this deficiency is the result of management's failure to correct the finding noted in the prior-year audit report.

RECOMMENDATION

Officials should segregate duties to the extent possible using available resources.

BEST PRACTICE

AN AUDIT COMMITTEE HAS NOT BEEN ESTABLISHED

Franklin County does not have an Audit Committee. Sound business practices dictate that establishing an Audit Committee would significantly improve management oversight and accountability. The absence of an Audit Committee has been a management decision by the County Commission. The Division of County Audit strongly believes that an Audit Committee is a best practice that should be adopted to assist the County Commission by providing independent and objective reviews of the financial reporting process, internal controls, the audit function, and being responsible for monitoring management's plans to address various risks.

MANAGEMENT'S RESPONSE – FINANCE DIRECTOR

On October 5, 2010, the Finance Committee recommended to the County Commission that an Audit Committee be created. The County Commission will view a resolution on January 18, 2011, to create an Audit Committee.

**PART III, FINDINGS AND QUESTIONED
COSTS FOR FEDERAL AWARDS**

There were no findings and questioned costs for federal programs.
