Independent Auditor's Report

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the county's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Franklin County Emergency Communications District, which represent 2.95 percent, 3.78 percent, and .99 percent, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Franklin County Emergency Communications District, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits

contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of June 30, 2014, and the respective changes in financial position and the respective budgetary comparison for the General and Highway/Public Works funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note V.B., Franklin County has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans* and GASB Statement No. 70, *Accounting and Reporting for Nonexchange Financial Guarantees*, which have an effective date of June 30, 2014. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic

financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the schedules of funding progress – pension plan and other postemployment benefits plan on pages 73-75 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Franklin County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the Education Debt Service Fund, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), and miscellaneous schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

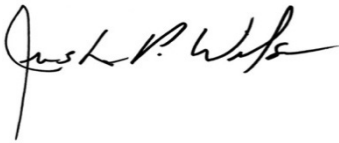

The combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the Education Debt Service Fund, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), and miscellaneous schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us. In our opinion, based on our audit and the procedures performed as described above, the combining and individual nonmajor fund financial statements, budgetary comparison schedules of nonmajor governmental funds and the Education Debt Service Fund, combining and individual fund financial statements of the Franklin County School Department (a discretely presented component unit), and miscellaneous schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 26, 2014, on our consideration of Franklin County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Franklin County's internal control over financial reporting and compliance.

Very truly yours,

Justin P. Wilson
Comptroller of the Treasury

Exhibit C-4

Franklin County, Tennessee
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2014

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

Net change in fund balances - total governmental funds (Exhibit C-3)	\$	741,906
(1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows:		
Add: capital assets purchased in the current period	\$	1,734,739
Less: current-year depreciation expense		<u>(2,068,045)</u>
		(333,306)
(2) The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to increase net position.		
Add: assets donated and capitalized	\$	191,188
Less: book value of capital assets disposed		<u>(37,795)</u>
		153,393
(3) Revenues in the statement of activities that do not provide current financial resources are not reported in the funds.		
Add: deferred delinquent property taxes and other deferred June 30, 2014	\$	697,737
Less: deferred delinquent property taxes and other deferred June 30, 2013		<u>(886,965)</u>
		(189,228)
(4) The issuance of long-term debt (e.g., bonds, notes, other loans, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:		
Less: note proceeds	\$	(450,000)
Less: change in deferred amount on refunding debt		(54,095)
Add: change in premium on debt issuance		45,810
Less: contributions from the School Department for capital leases		(204,186)
Add: principal payments on notes		567,215
Add: principal payments on capital leases		350,239
Add: principal payments on bonds		<u>3,934,168</u>
		4,189,151
(5) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.		
Change in accrued interest payable	\$	13,178
Change in compensated absences payable		(163,179)
Change in other postemployment benefits liability		(138,505)
Change in landfill closure/postclosure care costs		<u>2,020</u>
		(286,486)
Change in net position of governmental activities (Exhibit B)	\$	<u><u>4,275,430</u></u>

FRANKLIN COUNTY, TENNESSEE
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2014

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Franklin County's financial statements are presented in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments.

The following are the more significant accounting policies of Franklin County:

A. Reporting Entity

Franklin County is a public municipal corporation governed by an elected 16-member board. As required by GAAP, these financial statements present Franklin County (the primary government) and its component units. The component units discussed below are included in the county's reporting entity because of the significance of their operational or financial relationships with the county.

Discretely Presented Component Units – The following entities meet the criteria for discretely presented component units of the county. They are reported in separate columns in the government-wide financial statements to emphasize that they are legally separate from the county.

The Franklin County School Department operates the public school system in the county, and the voters of Franklin County elect its board. The School Department is fiscally dependent on the county because it may not issue debt, and its budget and property tax levy are subject to the County Commission's approval. The School Department's taxes are levied under the taxing authority of the county and are included as part of the county's total tax levy.

The Franklin County Emergency Communications District provides a simplified means of securing emergency services through a uniform emergency number for the residents of Franklin County, and the Franklin County Commission appoints its governing body. The district is funded primarily through a service charge levied on telephone services. Before the issuance of most debt instruments, the district must obtain the County Commission's approval.

The Franklin County School Department does not issue separate financial statements from those of the county. Therefore, basic financial statements of the Franklin County School Department are included in this report as listed in the table of contents. Complete financial statements of the Franklin County Emergency Communications District can be obtained from its administrative office at the following address:

Administrative Office:

Franklin County Emergency Communications District

Winchester, TN 37398

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. However, when applicable, interfund services provided and used between functions are not eliminated in the process of consolidation in the Statement of Activities. Governmental activities are normally supported by taxes and intergovernmental revenues. Business-type activities, which rely to a significant extent on fees and charges, are required to be reported separately from governmental activities in government-wide financial statements. However, the primary government of Franklin County does not have any business-type activities to report. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The Franklin County School Department component unit only reports governmental activities in the government-wide financial statements.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Franklin County issues all debt for the discretely presented Franklin County School Department. There were no debt issues contributed by the county to the School Department during the year ended June 30, 2014.

Separate financial statements are provided for governmental funds and fiduciary funds. The fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the

fiduciary fund financial statements, except for agency funds, which have no measurement focus. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Fund financial statements of Franklin County are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, deferred outflows of resources, liabilities, deferred inflow of resources, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental category. Franklin County has no proprietary funds to report.

Separate financial statements are provided for governmental funds and fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All other governmental funds are aggregated into a single column on the fund financial statements. The fiduciary funds in total are reported in a single column.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the county considers revenues other than grants to be available if they are collected within 30 days after year-end. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met and the revenues are available. Franklin County considers grants and similar revenues to be available if they are collected within 60 days after year-end. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Principal and interest on long-term debt are recognized as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made early in the following year.

Property taxes for the period levied, in-lieu-of tax payments, sales taxes, interest, and miscellaneous taxes are all considered to be susceptible to accrual and have been recognized as revenues of the current period. Applicable business taxes, litigation taxes, state-shared excise taxes, fines, forfeitures, and penalties are not susceptible to accrual since they are not measurable (reasonably estimable). All other revenue items are considered to be measurable and available only when the county receives cash.

Fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues

are recognized when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Franklin County reports the following major governmental funds:

General Fund – This is the county’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Highway/Public Works Fund – This special revenue fund accounts for transactions of the county’s Highway Department. Local and state gasoline/fuel taxes are the foundational revenues of this fund.

Education Debt Service Fund – This fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt for construction and renovations of the county’s schools.

Additionally, Franklin County reports the following fund types:

Agency Funds – These funds account for amounts collected in an agency capacity by the constitutional officers and local sales taxes received from the state to be forwarded to the various cities in the county. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. They do, however, use the accrual basis of accounting to recognize receivables and payables.

The discretely presented Franklin County School Department reports the following major governmental funds:

General Purpose School Fund – This fund is the primary operating fund for the School Department. It is used to account for general operations of the School Department.

Central Cafeteria Fund – This special revenue fund is used to account for the cafeteria operations in each of the schools. USDA School Lunch and Breakfast Programs and payments received from the sale of meals are the foundational revenues of this fund.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

D. **Assets, Liabilities, Deferred Outflow/Inflow of Resources, and Net Position/Fund Balance**

1. **Deposits and Investments**

State statutes authorize the government to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposit accounts at state and federal chartered banks and savings and loan associations; repurchase agreements; the State Treasurer's Investment Pool; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government sponsored enterprises; and the county's own legally issued bonds or notes.

The county trustee maintains a cash and internal investment pool that is used by all funds and the discretely presented Franklin County School Department. Each fund's portion of this pool is displayed on the balance sheets or statements of net position as Equity in Pooled Cash and Investments. Most income from these pooled investments is assigned to the Solid Waste/Sanitation Fund. Franklin County and the School Department have adopted a policy of reporting U.S. Treasury obligations, U.S. agency obligations, and repurchase agreements with maturities of one year or less when purchased on the balance sheet at amortized cost. Certificates of deposit are reported at cost. Investments in the State Treasurer's Investment Pool are reported at fair value. The State Treasurer's Investment Pool is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Accordingly, the pool qualifies as a 2a7-like pool and is reported at the net asset value per share (which approximates fair value) even though it is calculated using the amortized cost method. State statutes require the state treasurer to administer the pool under the same terms and conditions, including collateral requirements, as prescribed for other funds invested by the state treasurer. All other investments are reported at fair value.

2. **Receivables and Payables**

Activity between funds for unremitted current collections at the end of the fiscal year is referred to as due to/from other funds.

All property taxes receivable are shown net of an allowance for uncollectibles. The allowance for uncollectible property taxes is equal to 3.5 percent of total taxes levied.

Property taxes receivable are recognized as of the date an enforceable legal claim to the taxable property arises. This date is January 1 and

is referred to as the lien date. However, revenues from property taxes are recognized in the period for which the taxes are levied, which is the ensuing fiscal year. Since the receivable is recognized before the period of revenue recognition, the entire amount of the receivable, less an estimated allowance for uncollectible taxes, is reported as a deferred inflow of resources as of June 30.

Property taxes receivable are also reported as of June 30 for the taxes that are levied, collected, and reported as revenue during the current fiscal year. These property taxes receivable are presented on the balance sheet as a deferred inflow of resources to reflect amounts not available as of June 30. Property taxes collected within 30 days of year end are considered available and accrued. The allowance for uncollectible taxes represents the estimated amount of the receivable that will be filed in court for collection. Delinquent taxes filed in court for collection are not included in taxes receivable since they are neither measurable nor available.

Property taxes are levied as of the first Monday in October. Taxes become delinquent and begin accumulating interest and penalty the following March 1. Suit must be filed in Chancery Court between the following February 1 to April 1 for any remaining unpaid taxes. Additional costs attach to delinquent taxes after a court suit has been filed.

Most payables are disaggregated on the face of the financial statements.

3. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as an expenditure when consumed rather than when purchased. Prepaids are offset in the nonspendable fund balance account in governmental funds.

4. Capital Assets

Governmental funds do not capitalize the cost of capital outlays; these funds report capital outlays as expenditures upon acquisition.

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, and similar items), are reported in the governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 (land improvements \$25,000; buildings, improvements, and infrastructure \$50,000) or more and an estimated useful life exceeding three years. Such assets

are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, equipment, and infrastructure of the primary government and the discretely presented School Department are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	25 - 40
Other Capital Assets	5 - 20
Infrastructure:	
Roads	20
Bridges	40

5. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The government has items that qualify for reporting in this category. Accordingly, the items are reported in the government-wide Statement of Net Position and the governmental funds balance sheet. These revenues are from the following sources: current and delinquent property taxes and various receivables for

revenue, which do not meet the availability criteria in governmental funds. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

6. Compensated Absences

It is the policy of the general government (excluding the Highway Department) to permit its employees to accumulate the following hours of vacation leave based on length of employment:

<u>Years of Service</u>	<u>Hours</u>
One	40
Two through Eight	80
Nine and Over	120

It is the policy of the Highway Department to permit its employees to accumulate the following days of vacation leave based on length of employment:

<u>Years of Service</u>	<u>Days</u>
One	5
Two through Nine	10
Ten and Over	15

Earned but unused vacation leave will be paid to the employee upon retirement, resignation, or termination. On each employee's anniversary date, all accumulated vacation leave will be converted to sick leave. All vacation leave is accrued when incurred in the government-wide statements for the general county government. The granting of sick leave has no guaranteed payment attached and therefore is not required to be accrued or recorded.

It is the policy of the discretely presented Franklin County School Department to permit its 11- and 12-month employees to accumulate up to a maximum of 30 days over a two-year period of earned but unused vacation leave, which will be paid upon retirement, resignation, or termination. Any accumulated unused vacation leave in excess of two years is forfeited. All vacation leave for 11- and 12-month employees is accrued when incurred in the government-wide statements for the School Department. The policy of the School Department does not allow their ten-month employees to accumulate vacation days beyond June 30. The granting of sick leave has no guaranteed payment attached and therefore is not required to be accrued or recorded. A liability for vacation leave is reported in governmental funds only if amounts have matured, for example, as a result of employee resignations and retirements.

7. **Long-term Obligations**

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of Net Position. Debt premiums and discounts are deferred and amortized over the life of the new debt using the straight-line method. Debt issuance costs are expensed in the period incurred. In refunding transactions, the difference between the reacquisition price and the net carrying amount of the old debt is reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the refunded debt or the life of the new debt issued, whichever is shorter.

In the fund financial statements, governmental fund types recognize debt premiums and discounts, as well as debt issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Only the matured portion (the portion that has come due for payment) of long-term indebtedness, including bonds payable, is recognized as a liability and expenditure in the governmental fund financial statements. Liabilities and expenditures for other long-term obligations, including compensated absences and landfill closure and postclosure cost, are recognized to the extent that the liabilities have matured (come due for payment) each period.

8. **Net Position and Fund Balance**

In the government-wide financial statements, equity is classified as net position and displayed in three components:

- a. Net investment in capital assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

- c. Unrestricted net position – All other net position that does not meet the definition of restricted or net investment in capital assets.

As of June 30, 2014, Franklin County has \$16,707,180 in outstanding debt for capital purposes for the discretely presented Franklin County School Department. This debt is a liability of Franklin County; however, the capital assets acquired are reported in the financial statements of the School Department. Therefore, Franklin County has incurred a liability significantly decreasing its unrestricted net position with no corresponding increase in the county's capital assets.

It is the county's policy that restricted amounts would be reduced first followed by unrestricted amounts when expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available. Also, it is the county's policy that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of these unrestricted fund balance classifications could be used.

In the fund financial statements, governmental funds report fund balance in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in these funds can be spent. These classifications may consist of the following:

Nonspendable Fund Balance – includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – includes amounts that have constraints placed on the use of the resources that are either (a) externally imposed by creditors, grantors, contributors or laws and regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance – includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the County Commission, the county's highest level of decision-making authority and the Board of Education, the School Department's highest level of decision-making authority, and shall remain binding unless removed in the same manner.

Assigned Fund Balance – includes amounts that are constrained by the county's intent to be used for specific purposes, but are neither restricted nor committed (excluding stabilization arrangements). The County Commission has by

resolution authorized the county's Financial Management Committee to make assignments for the general government. The Board of Education makes assignments for the School Department.

Unassigned Fund Balance – the residual classification of the General and General Purpose School funds. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General and General Purpose School funds.

9. Minimum Fund Balance Policy

To provide management with appropriate guidelines and direction to assist in making sound decisions related to managing the fund balance of certain governmental funds, the following minimum fund balance policy exists for unassigned fund balance:

Primary Government

General Fund – 2.5 percent of current-year expenditures and transfers to other funds.

Courthouse and Jail Maintenance, Public Library, Solid Waste/Sanitation, Local Purpose Tax, and Highway/Public Works funds – five percent of current-year expenditures and transfers to other funds.

Debt Service Funds – the county will typically have at least one-half year of future principal and interest payments as fund balance.

Discretely Presented Franklin County School Department

Central Cafeteria Fund – five percent of current-year expenditures and transfers to other funds.

Exhibit I-5 includes explanations of the nature of individual elements of items required to reconcile the net change in fund balances – total governmental funds with the change in net position of governmental activities reported in the government-wide Statement of Activities.

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP) for all governmental funds except the Constitutional Officers - Fees Fund (special revenue fund), which is not budgeted. All annual appropriations lapse at fiscal year end.

The county is required by state statute to adopt annual budgets. Annual budgets are prepared on the basis in which current available funds must be sufficient to meet current expenditures. Expenditures and encumbrances may not legally exceed appropriations authorized by the County Commission and any authorized revisions. Unencumbered appropriations lapse at the end of each fiscal year.

The budgetary level of control is at the major category level established by the County Uniform Chart of Accounts, as prescribed by the Comptroller of the Treasury of the State of Tennessee. Major categories are at the department level (examples of General Fund major categories: County Commission, Board of Equalization, County Mayor/Executive, County Attorney, etc.). Management may make revisions within major categories, but only the County Commission may transfer appropriations between major categories. During the year, several supplementary appropriations were necessary.

The county's budgetary basis of accounting is consistent with GAAP, except instances in which encumbrances are treated as budgeted expenditures. The difference between the budgetary basis and GAAP basis is presented on the face of each budgetary schedule.

At June 30, 2014, Franklin County and the Franklin County School Department reported the following significant encumbrances:

Funds	Description	Amount
Primary Government		
Major Funds:		
General	Sprinkler Installation	\$ 38,867
"	Tax Rolls and Equipment	12,666
"	Gasoline	30,127
"	Engineering Services	15,000
"	Various Training	43,413
"	Inmate Contracted Services	19,226
"	Video Cameras	5,614
"	Heating and Air System	99,950
"	Solid Waste Truck	169,265
Highway/Public Works	Repair to Crusher	130,000
"	Asphalt	52,386
"	Engineering Services	13,993
Nonmajor Fund:		
Solid Waste/Sanitation	Garbage Hauling	23,321
School Department		
Major Fund:		
General Purpose School	Notebook Computers	221,513
"	Paper	41,026
"	Various Repairs	26,898

B. Expenditures Exceeded Appropriations

Expenditures exceeded appropriations approved by the County Commission in the Correctional Incentive Program Improvements major appropriations category (the legal level of control) of the General Fund by \$41,423. Expenditures that exceed appropriations are a violation of state statutes. These expenditures in excess of appropriations were funded by available fund balance.

C. Cash Shortage

Two employees of the Franklin County Sanitation Department were indicted by a Grand Jury on September 2, 2014, for charges of theft of property of at least \$1,000 but less than \$10,000. These employees allegedly stole scrap metal, which was the property of Franklin County and sold the metal for personal gain. The exact amount of the cash shortage created by this activity

is unknown at this time; but is not believed to be material to the financial statements of Franklin County based on the charges filed. These employees employment was terminated from the Sanitation Department, and they are awaiting a January 20, 2015, court date.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Franklin County and the Franklin County School Department participate in an internal cash and investment pool through the Office of Trustee. The county trustee is the treasurer of the county and in this capacity is responsible for receiving, disbursing, depositing, and investing most county funds. Each fund's portion of this pool is displayed on the balance sheets or statements of net position as Equity in Pooled Cash and Investments. Cash reflected on the balance sheets or statements of net position represents nonpooled amounts held separately by individual funds.

Deposits

Legal Provisions. All deposits with financial institutions must be secured by one of two methods. One method involves financial institutions that participate in the bank collateral pool administered by the state treasurer. Participating banks determine the aggregate balance of their public fund accounts for the State of Tennessee and its political subdivisions. The amount of collateral required to secure these public deposits must equal at least 105 percent of the average daily balance of public deposits held. Collateral securities required to be pledged by the participating banks to protect their public fund accounts are pledged to the state treasurer on behalf of the bank collateral pool. The securities pledged to protect these accounts are pledged in the aggregate rather than against each account. The members of the pool may be required by agreement to pay an assessment to cover any deficiency. Under this additional assessment agreement, public fund accounts covered by the pool are considered to be insured for purposes of credit risk disclosure.

For deposits with financial institutions that do not participate in the bank collateral pool, state statutes require that all deposits be collateralized with collateral whose market value is equal to 105 percent of the uninsured amount of the deposits. The collateral must be placed by the depository bank in an escrow account in a second bank for the benefit of the county.

Investments

Legal Provisions. Counties are authorized to make direct investments in bonds, notes, or treasury bills of the U.S. government and obligations guaranteed by the U.S. government or any of its agencies; deposits at state and federal chartered banks and savings and loan associations; bonds of any state or political subdivision rated A or higher by any nationally recognized rating service; nonconvertible debt securities of certain federal government

sponsored enterprises; and the county's own legally issued bonds or notes. These investments may not have a maturity greater than two years. The county may make investments with longer maturities if various restrictions set out in state law are followed. Counties are also authorized to make investments in the State Treasurer's Investment Pool and in repurchase agreements. Repurchase agreements must be approved by the state Comptroller's Office and executed in accordance with procedures established by the State Funding Board. Securities purchased under a repurchase agreement must be obligations of the U.S. government or obligations guaranteed by the U.S. government or any of its agencies. When repurchase agreements are executed, the purchase of the securities must be priced at least two percent below the fair value of the securities on the day of purchase.

Investment Balances. As of June 30, 2014, Franklin County had the following investments carried at fair value. All investments are in the county trustee's investment pool. Separate disclosures concerning pooled investments cannot be made for Franklin County and the discretely presented Franklin County School Department since both pool their deposits and investments through the county trustee.

Investment	Weighted Average Maturity (days)	Maturities	Fair Value
State Treasurer's Investment Pool	109	N/A	\$ 58,470

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. State statutes limit the maturities of certain investments as previously disclosed. Franklin County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State statutes limit the ratings of certain investments as previously explained. Franklin County has no investment policy that would further limit its investment choices. As of June 30, 2014, Franklin County's investment in the State Treasurer's Investment Pool was unrated.

C. Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of June 30, 2014, was as follows:

Due to/from Other Funds:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
Primary Government:		
General	Nonmajor governmental	\$ 2,996
Highway/Public Works	General	2,384

These balances resulted from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payments between funds are made.

Due to/from Primary Government and Component Unit:

<u>Receivable</u>	<u>Payable</u>	<u>Amount</u>
Primary Government:		
Governmental Activities	Component Unit: School Department	\$ 715,580

The Due to Primary Government consists of the balance of capital leases issued by the county for the School Department. The School Department has agreed to contribute the funds annually to retire this debt. These long-term debt obligations are reflected in the governmental activities on the Statement of Net Position.

Interfund Transfers:

Interfund transfers for the year ended June 30, 2014, consisted of the following amounts:

Primary Government

Transfers Out	Transfers In		
	General Fund	Highway/ Public Works Fund	Nonmajor Governmental Funds
General Fund	\$ 0	\$ 15,806	\$ 923,308
Highway/Public Works Fund	3,803	0	0

Discretely Presented Franklin County School Department

Transfers Out	Transfer In Nonmajor Governmental Fund
General Purpose School Fund	\$ 10,000

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

The School Department made a one-time transfer of \$10,000 from the General Purpose School Fund to the School Federal Projects Fund to help with cash flow.

D. Capital Leases

Primary Government

On January 3, 2011, Franklin County entered into a seven-year lease-purchase agreement for an energy efficient lighting system for all county buildings. The terms of the agreement require total lease payments of \$308,473 plus interest of 4.75 percent. Title to the energy efficient lighting system transfers to Franklin County at the end of the lease period. The lease payments are made from the General Fund.

On April 27, 2010, Franklin County entered into a five-year lease-purchase agreement for two trucks for the Highway Department. The terms of the original agreement required total lease payments of \$183,021 plus interest of 4.7 percent. Title to the trucks transfers to Franklin County at the end of the lease period. The lease payments are made from the Highway/Public Works Fund.

On October 20, 2009, Franklin County entered into a five-year lease-purchase agreement for telecommunications, electronics, and security equipment for the justice center. The terms of the original agreement required total lease payments of \$300,000 plus interest of 5.265 percent. Title to the equipment transfers to Franklin County at the end of the lease period. The lease payments are made from the General Fund.

On September 1, 2010, Franklin County entered into a seven-year lease-purchase agreement for the School Department for an energy efficient lighting system for some school buildings. The terms of the original agreement required total lease payments of \$500,000. There is no interest on this lease. Title to the energy efficient lighting system transfers to the School Department at the end of the lease period. The General Purpose School Fund is contributing the lease payments through the Education Debt Service Fund.

On September 1, 2010, Franklin County entered into a five-year lease-purchase agreement for the School Department for an energy efficient lighting system for some school buildings. The terms of the original agreement required total lease payments of \$386,672 plus interest of three percent. Title to the energy efficient lighting system transfers to the School Department at the end of the lease period. The General Purpose School Fund is contributing the lease payments through the Education Debt Service Fund.

On October 1, 2010, Franklin County entered into a ten-year lease-purchase agreement for the School Department for an energy efficient lighting system for some school buildings. The terms of the original agreement required total lease payments of \$581,879 plus interest of five percent. Title to the energy efficient lighting system transfers to the School Department at the end of the lease period. The General Purpose School Fund is contributing the lease payments through the Education Debt Service Fund.

E. Long-term Obligations

Primary Government

General Obligation Bonds and Notes

Franklin County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities for the primary government and the discretely presented School Department. In addition, general obligation bonds have been issued to refund other general obligation bonds. Capital outlay notes are also issued to fund capital facilities and other capital outlay purchases, such as equipment.

General obligation bonds and capital outlay notes are direct obligations and pledge the full faith and credit of the government. General obligation bonds and capital outlay notes outstanding were issued for original terms of up to 40 years for bonds and 12 years for notes. Repayment terms are generally structured with increasing amounts of principal maturing as interest requirements decrease over the term of the debt. Bonds will be retired from the General Debt Service and Education Debt Service funds and notes will be retired from the Highway/Public Works and General Debt Service funds.

General obligation bonds, notes, and capital leases outstanding as of June 30, 2014, for governmental activities are as follows:

Type	Interest Rate	Final Maturity	Original Amount of Issue	Balance 6-30-14
General Obligation Bonds	2.5 to 5 %	5-21-48	\$ 10,878,000	\$ 8,147,793

F. On-Behalf Payments

Discretely Presented Franklin County School Department

The State of Tennessee pays health insurance premiums for retired teachers on-behalf of the Franklin County School Department. These payments are made by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan. Both of these plans are administered by the State of Tennessee and reported in the state's Comprehensive Annual Financial Report. Payments by the state to the Local Education Group Insurance Plan and the Medicare Supplement Plan for the year ended June 30, 2014, were \$141,408 and \$39,684, respectively. The School Department has recognized these on-behalf payments as revenues and expenditures in the General Purpose School Fund.

G. Short-term Debt

Primary Government

Franklin County issued revenue anticipation notes totaling \$100,000 from the General Fund in advance of revenue collections and deposited the

proceeds in the Solid Waste/Sanitation Fund. These notes were necessary because funds were not available to meet obligations coming due before property tax collections. Short-term debt activity for the year ended June 30, 2014, was as follows:

	Balance 7-1-13	Issued	Paid	Balance 6-30-14

V. OTHER INFORMATION

A. Risk Management

Franklin County’s and the discretely presented Franklin County School Department’s risks of loss relating to general liability, property, and casualty are covered by participation in a public entity risk pool. The county and the School Department are members of the Tennessee Risk Management Trust (TN-RMT), which is a public entity risk pool created under the auspices of the Tennessee Governmental Tort Liability Act to provide governmental insurance coverage. The county and the School Department pay annual premiums to the TN-RMT for their general liability, property, and casualty coverage. The creation of the TN-RMT provides for it to be self-sustaining through member premiums.

The county carries commercial insurance for risks of loss relating to workers’ compensation. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. The county does not insure against environmental claims or losses.

Franklin County provides health insurance coverage to its employees through the Local Government Group Insurance Fund (LGGIF), a public entity risk

pool established to provide a program of health insurance coverage for employees of local governments and quasi-governmental entities that was established for the primary purpose of providing services for or on behalf of state and local governments. In accordance with Section 8-27-207, *Tennessee Code Annotated (TCA)*, all local governments and quasi-governmental entities described above are eligible to participate. The LGGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by the fund. The state statute provides for the LGGIF to be self-sustaining through member premiums.

The School Department's risks of loss relating to workers' compensation are covered by participation in a public entity risk pool. The School Department is a member of the Tennessee Risk Management Trust (TN-RMT), which is a public entity risk pool created under the auspices of the Tennessee Governmental Tort Liability Act to provide governmental insurance coverage. The School Department pays annual premiums to the TN-RMT for its workers' compensation coverage. The creation of the TN-RMT provides for it to be self-sustaining through member premiums.

The School Department participates in the Local Education Group Insurance Fund (LEGIF), a public entity risk pool established to provide a program of health insurance coverage for employees of local education agencies. In accordance with Section 8-27-301, *TCA*, all local education agencies are eligible to participate. The LEGIF is included in the Comprehensive Annual Financial Report of the State of Tennessee, but the state does not retain any risk for losses by this fund. Section 8-27-303, *TCA*, provides for the LEGIF to be self-sustaining through member premiums.

B. Accounting Changes

Provisions of Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans* and Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees* became effective for the year ended June 30, 2014.

GASB Statement No. 67, replaces the requirements of Statements No. 25 and No. 50 related to pension plans that are administered through trusts or equivalent arrangements. The requirements of Statements No. 25 and No. 50 remain applicable to pension plans that are not administered through trusts or equivalent arrangements.

GASB Statement No. 70, relates to accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees.

C. Subsequent Events

On July 2, 2014, the School Department's General Purpose School Fund issued a \$100,000 revenue anticipation note to the School Federal Projects Fund for temporary operating funds.

On September 15, 2014, the General Fund issued a \$100,000 revenue anticipation note to the Solid Waste/Sanitation Fund for temporary operating funds.

D. Contingent Liabilities

The county attorney advised that the county is involved in two pending lawsuits involving the Franklin County landfill located on the Yarbrough property. The first case was filed by Yarbrough heirs against Franklin County for damages involving the operation of the landfill. The second case is a condemnation case whereby Franklin County condemns the Yarbrough property. The county attorney believes that both of these cases could possibly lead to some potential liability for Franklin County. The county has previously paid into the court the appraised value of the Yarbrough property, and this has been withdrawn by the Yarbrough heirs. According to the county attorney, whether or not any additional liability will be assessed by the jury trying the case would be impossible to say.

E. Landfill Postclosure Care Costs

Franklin County has an active permit on file with the state Department of Environment and Conservation for a sanitary landfill. The county has provided financial assurances for estimated postclosure liabilities as required by the State of Tennessee. These financial assurances are on file with the Department of Environment and Conservation.

State and federal laws and regulations require the county to place a final cover on its landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the county reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. Franklin County closed its sanitary landfill in 1995. The \$326,801 reported as landfill postclosure care liability at June 30, 2014, represents amounts based on what it would cost to perform all postclosure care in 2014. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

F. Joint Ventures

The Interlocal Solid Waste Authority is jointly operated by the counties of Giles, Franklin, and Lincoln and the municipality of Tullahoma for the purpose of developing a solid waste regional plan. Also, since inception, the

municipalities of Shelbyville, Ardmore, Elkton, Petersburg, Pulaski and Minor Hill have been admitted as “participants.” The authority’s board was appointed by each participating County Commission or City Council for varying terms of office. Franklin County made no contributions to the authority for the year ended June 30, 2014.

The Twelfth Judicial District Drug Task Force (DTF) is a joint venture formed by an interlocal agreement between the district attorney general of the Twelfth Judicial District; Bledsoe, Franklin, Grundy, Marion, Rhea, and Sequatchie counties; and various cities within these counties. The purpose of the DTF is to provide multi-jurisdictional law enforcement to promote the investigation and prosecution of drug-related activities. Funds for the operations of the DTF come primarily from federal grants, drug fines, and the forfeiture of drug-related assets to the DTF. The DTF is overseen by the district attorney general and is governed by a board of directors comprised of the district attorney general, sheriffs, and police chiefs of the participating law enforcement agencies within the judicial district. Franklin County made no contributions to the DTF for the year ended June 30, 2014.

Franklin County does not have equity interests in any of the above-noted joint ventures. Complete financial statements for the Interlocal Solid Waste Authority and the Twelfth Judicial District Drug Task Force can be obtained from their administrative offices at the following addresses:

G. Retirement Commitments

Plan Description

Employees of Franklin County are members of the Political Subdivision Pension Plan (PSPP), an agent multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits. Benefits are determined by a formula using the member’s high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members at the age of 55. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of

duty. Members joining the system after July 1, 1979, become vested after five years of service, and members joining prior to July 1, 1979, were vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37, *Tennessee Code Annotated*. State statutes are amended by the Tennessee General Assembly. Political subdivisions such as Franklin County participate in the TCRS as individual entities and are liable for all costs associated with the operation and administration of their plan. Benefit improvements are not applicable to a political subdivision unless approved by the chief governing body.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the PSPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor, Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at <http://www.tn.gov/treasury/tcrs/PS/>.

Funding Policy

Franklin County requires employees to contribute five percent of their earnable compensation to the plan. The county is required to contribute at an actuarially determined rate; the rate for the fiscal year ended June 30, 2014, was 13.22 percent of annual covered payroll. The contribution requirement of plan members is set by state statute. The contribution requirement for the county is established and may be amended by the TCRS Board of Trustees.

Annual Pension Cost

For the year ended June 30, 2014, the county's annual pension cost of \$1,756,198 to TCRS was equal to the county's required and actual contributions. The required contribution was determined as part of the July 1, 2011, actuarial valuation using the frozen entry age actuarial cost method. Significant actuarial assumptions used in the valuation include (a) rate of return on investment of present and future assets of 7.5 percent a year compounded annually, (b) projected three percent annual rate of inflation, (c) projected salary increases of 4.75 percent (graded) annual rate (no explicit assumption is made regarding the portion attributable to the effects of inflation on salaries), (d) projected 3.5 percent annual increase in the Social Security wage base, and (e) projected postretirement increases of 2.5 percent annually. The actuarial value of assets was determined using techniques that smooth the effect of short-term volatility in the market value of total investments over a ten-year period. The county's unfunded actuarial accrued liability is being amortized as a level dollar amount on a closed basis. The remaining amortization period at July 1, 2011, was six years. An actuarial valuation was performed as of July 1, 2011, which established contribution rates effective July 1, 2012.

Trend Information

Fiscal Year Ended	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
6-30-14	\$1,756,198	100%	\$0
6-30-13	1,710,671	100	0
6-30-12	1,700,595	100	0

Funded Status and Funding Progress

As of July 1, 2013, the most recent actuarial valuation date, the plan was 91.81 percent funded. The actuarial accrued liability for benefits was \$36.53 million, and the actuarial value of assets was \$33.53 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$2.99 million. The covered payroll (annual payroll of active employees covered by the plan) was \$12.3 million, and the ratio of the UAAL to the covered payroll was 24.32 percent.

The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

SCHOOL TEACHERS

Plan Description

The Franklin County School Department contributes to the State Employees, Teachers, and Higher Education Employees Pension Plan (SETHEEPP), a cost-sharing multiple-employer defined benefit pension plan administered by the Tennessee Consolidated Retirement System (TCRS). TCRS provides retirement benefits as well as death and disability benefits to plan members and their beneficiaries. Benefits are determined by a formula using the member's high five-year average salary and years of service. Members become eligible to retire at the age of 60 with five years of service or at any age with 30 years of service. A reduced retirement benefit is available to vested members who are at least 55 years of age or have 25 years of service. Disability benefits are available to active members with five years of service who become disabled and cannot engage in gainful employment. There is no service requirement for disability that is the result of an accident or injury occurring while the member was in the performance of duty. Members joining the plan on or after July 1, 1979, are vested after five years of service. Members joining prior to July 1, 1979, are vested after four years of service. Benefit provisions are established in state statute found in Title 8, Chapters 34-37, *Tennessee Code Annotated*. State statutes are amended by the

Tennessee General Assembly. A cost of living adjustment (COLA) is provided to retirees each July based on the percentage change in the Consumer Price Index (CPI) during the previous calendar year. No COLA is granted if the CPI increases less than one-half percent. The annual COLA is capped at three percent.

The TCRS issues a publicly available financial report that includes financial statements and required supplementary information for the SETHEPP. That report may be obtained by writing to the Tennessee Treasury Department, Consolidated Retirement System, 10th Floor, Andrew Jackson Building, Nashville, TN 37243-0230 or can be accessed at www.tn.gov/treasury/tcrs/Schools.

Funding Policy

Most teachers are required by state statute to contribute five percent of their salaries to the plan. The employer contribution rate for the School Department is established at an actuarially determined rate. The employer rate for the fiscal year ended June 30, 2014, was 8.88 percent of annual covered payroll. The employer contribution requirement for the School Department is established and may be amended by the TCRS Board of Trustees. The employer's contributions to TCRS for the years ended June 30, 2014, 2013, and 2012, were \$1,861,081, \$1,860,813, and \$1,880,082, respectively, equal to the required contributions for each year.

H. Other Postemployment Benefits (OPEB)

Plan Description

Franklin County and the School Department participate in the state-administered Local Education Group Insurance Plan and Local Government Group Insurance Plan for healthcare benefits. For accounting purposes, the plans are agent multiple-employer defined benefit OPEB plans. Benefits are established and amended by an insurance committee created by Section 8-27-302, *Tennessee Code Annotated (TCA)*, for local education employees and Section 8-27-207, *TCA*, for local governments. Prior to reaching the age of 65, all members have the option of choosing between the standard or partnership preferred provider organization (PPO) plan for healthcare benefits. Subsequent to age 65, members who are also in the state's retirement system may participate in a state-administered Medicare Supplement Plan that does not include pharmacy. The plans are reported in the State of Tennessee Comprehensive Annual Financial Report (CAFR). The CAFR is available on the state's website at <http://tn.gov/finance/act/cafr.html>.

Funding Policy

The premium requirements of plan members are established and may be amended by the insurance committee. The plans are self-insured and

financed on a pay-as-you-go basis with the risk shared equally among the participants. Claims liabilities of the plan are periodically computed using actuarial and statistical techniques to establish premium rates. The employers in each plan develop their own contribution policy in terms of subsidizing active employees or retired employees' premiums since the committee is not prescriptive on that issue. The state does not provide a subsidy for local government participants; however, the state does provide a partial subsidy to Local Education Agency pre-65 teachers and a full subsidy based on years of service for post-65 teachers in the Medicare Supplement Plan. The School Department retirees' contributions vary depending on the insurance options they select, ranging from \$297 to \$338 per month for their insurance. The required contribution amount for county and highway retirees' spouses is \$568 per month. During the year ended June 30, 2014, the county and the School Department contributed \$11,643 and \$584,653, respectively, for postemployment benefits.

The funded status of the plan as of July 1, 2013, was as follows:

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The Schedule of Funding Progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial Methods and Assumptions

Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial calculations reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

In the July 1, 2013, actuarial valuation for the Local Government Plan and the Local Education Plan, the projected unit credit actuarial cost method was used, and the actuarial assumptions included a four percent investment rate of return (net of administrative expenses) and an annual healthcare cost trend rate was 7.5 percent for fiscal year 2014. The trend rate will decrease to seven percent in fiscal year 2015 and then be reduced by decrements to an ultimate rate of 4.7 percent by fiscal year 2044. Both rates include a 2.5 percent inflation assumption. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on a closed basis over a 30-year period beginning with July 1, 2007.

I. Office of Central Accounting, Budgeting, and Purchasing

Franklin County operates under the provisions of the County Financial Management System of 1981. This act provides for a central system of accounting, budgeting, and purchasing for all county departments. The act also provides for the creation of a Finance Department operated under the direction of the finance director.

J. Purchasing Law

The County Financial Management System of 1981 provides for the finance director or a deputy appointed by her to serve as the county purchasing agent. The finance director serves as the purchasing agent for Franklin County. All purchase orders are issued by the Finance Department. Purchases exceeding \$10,000 for the Office of County Mayor, the discretely presented School Department, and the Office of Highway Superintendent are required to be competitively bid.

VI. OTHER NOTES – DISCRETELY PRESENTED FRANKLIN COUNTY EMERGENCY COMMUNICATIONS DISTRICT

A. Summary of Significant Accounting Policies

Business Activities

The Franklin County Emergency Communications District provides funds and support to procure, lease, and maintain necessary equipment and services related to fielding emergency phone calls in Franklin County.

Management uses estimates and assumptions in preparing these financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, as well as the reported revenues and expenses. Actual results could vary from the estimates that were used.

As required by accounting principles generally accepted in the United States of America, the financial statements of the reporting entity include those of the Franklin County Emergency Communications District. Legally, the district is a separate governmental entity that has considerable legal, financial, and administrative autonomy. However, as the governing board is not elected, but instead is entirely appointed by the county, the district cannot be a primary government. Instead, it qualifies as a component unit of Franklin County, Tennessee (the primary government).

Three board members of the district are appointed by the Franklin County Mayor and confirmed by the County Commission each year to serve four-year terms. The district is primarily funded by user charges.

Fund Financial Statements

The district's proprietary fund financial statements include a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Fund Net Position, and a Statement of Cash Flows.

Proprietary funds are accounted for using the "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all assets, deferred outflows of resources, liabilities (whether current or noncurrent), and deferred inflows of resources are included on the Statement of Net Position. The Statement of Revenues, Expenses, and Changes in Fund Net Position presents increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recognized in the period in which they are earned while expenses are recognized in the period in which the liability is incurred, regardless of the timing of related cash flows.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operations of the fund. All other revenues are reported as nonoperating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as nonoperating expenses.

The district classifies net position in the proprietary fund financial statements as follows:

- Net investments in capital assets includes the district's capital assets (net of accumulated depreciation) reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted Net Position includes assets that have third-party (statutory, bond covenant, or granting agency) limitations on their use. The district typically uses restricted assets first, as appropriate opportunities arise, but reserves the right to selectively defer the use until a future project. The district had no restrictions at June 30, 2014.
- Unrestricted Net Position typically includes unrestricted liquid assets. The Board of Directors has the authority to revisit or alter this designation.

Cash Deposits

The district is authorized to invest in the following types of securities and indebtedness in accordance with governing statutes:

- (1) Bonds, notes, treasury bills, or similar types of indebtedness to the United States.
- (2) Non-convertible debt including Federal Home Loan Bank, Federal National Mortgage Association, Federal Farm Credit Bank, and Student Loan Marketing Association.
- (3) Other obligations not specified above, which provide guaranteed principal and interest by the United States or any of its agencies.
- (4) Repurchase agreements, which involve obligations of the United States or its agencies, provided the term of the repurchase agreement does not extend beyond the maturity date of the obligation, and the market value of the security exceeds the cost of the security.
- (5) Money market funds invested in any of the aforementioned securities.

The district's deposits at year-end were entirely covered by federal depository insurance or by collateral held by the district's custodial bank in the district's name. The carrying amount of total cash deposits for the year ended June 30, 2014, was \$1,806,107.

Utility Plant

Equipment and property additions are recorded at cost. Depreciated is calculated using the straight-line method over the estimated useful life. The district estimates the useful life of its equipment to be between five and ten years.

Cash Flow

For purposes of the Statement of Cash Flows, the district considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Budgetary Data

Formal budgetary accounting is employed as a management control for all funds of the district. Annual operating budgets are adopted each fiscal year through passage of an annual budget resolution and amended as required for the proprietary funds, and the same basis of accounting is used to reflect actual revenues and expenditures/expenses recognized on a generally accepted accounting principles basis. Budgetary control is exercised at the line-item level. All unencumbered budget appropriations, except project budgets, lapse at the end of each fiscal year.

B. Capital Assets

A summary of changes in capital assets is as follows:

	Balance 7-1-13	Additions	Balance 6-30-14
Equipment	\$ 371,215	\$ 8,000	\$ 379,215
Less: Accumulated Depreciation	(267,379)	(70,002)	(337,381)
Total	\$ 103,836	\$ (62,002)	\$ 41,834

C. Cash and Cash Equivalents

At June 30, 2014, total cash was \$1,806,107, of which \$823,091 is held in certificates of deposit with maturities of more than three months, leaving \$983,016 considered as cash equivalents.

D. Budgeting Procedures

The official budget for June 30, 2014, was prepared for adoption for the proprietary fund by June 17, 2013.

E. Exposure

The district is included under the county coverage for the risks of losses to which it is exposed. These risks include general liability, property, and casualty. Settlement claims have not exceeded coverage in the past three years, and there are currently no pending lawsuits.

F. Grants and Reimbursements

The district received a GIS grant totaling \$59,513 and a reimbursement for the purchase of a master clock totaling \$5,000 as well as a training reimbursement of \$16,000 during the year from the Tennessee Emergency Communications Board.

G. Capital Lease Obligation

The capital lease obligation for the purchase of next generation 911 equipment was payable to AT&T Capital Services in monthly installments of \$5,743, including interest at 3.8 percent through 2015.

The following is a summary of changes in long-term debt during the 2014 fiscal year:

	Balance 7-1-13	Adjustments and Retirements	Balance 6-30-14
AT&T Capital Services	\$ 94,037	\$ (66,379)	\$ 27,658

A summary of annual debt service requirements at June 30, 2014, is as follows:

Fiduciary Funds

Agency Funds are used to account for assets held by the county in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Cities - Sales Tax Fund – The Cities - Sales Tax Fund is used to account for the second half of the sales tax revenues collected inside incorporated cities of the county. These revenues are received by the county from the State of Tennessee and forwarded to the various cities on a monthly basis.

Constitutional Officers - Agency Fund – The Constitutional Officers - Agency Fund is used to account for amounts collected in an agency capacity by the county clerk; circuit, general sessions, and juvenile courts clerk; clerk and master; register of deeds; and sheriff. Such collections include amounts due the state, cities, other county funds, litigants, heirs, and others.

Franklin County School Department

This section presents combining and individual fund financial statements for the Franklin County School Department, a discretely presented component unit. The Franklin County School Department uses a General Fund and two Special Revenue Funds.

General Purpose School Fund – The General Purpose School Fund is used to account for general operations of the School Department.

School Federal Projects Fund – The School Federal Projects Fund is used to account for restricted federal revenues, which must be expended on specific education programs.

Central Cafeteria Fund – The Central Cafeteria Fund is used to account for the cafeteria operations in each of the schools.

Amounts reported for governmental activities in the statement of activities (Exhibit B) are different because:

Net change in fund balances - total governmental funds (Exhibit I-4)		\$	206,074
(1) Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of these assets is allocated over their useful lives and reported as depreciation expense. The difference between capital outlays and depreciation is itemized as follows:			
Add: capital assets purchased in the current period	\$	1,422,263	
Less: current-year depreciation expense		<u>(2,240,022)</u>	(817,759)
(2) The net effect of various miscellaneous transactions involving capital assets (sales, trade-ins, and donations) is to decrease net position			
Less: book value of capital assets disposed			(75,127)
(3) Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.			
Add: deferred delinquent property taxes and other deferred June 30, 2014	\$	700,921	
Less: deferred delinquent property taxes and other deferred June 30, 2013		<u>(787,440)</u>	(86,519)
(4) The contributions of long-term debt (e.g., notes, bonds, leases) by the primary government provide current financial resources to governmental funds, while the contributions by the School Department of the principal of long-term debt consume the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.			
Add: principal contributions on leases to primary government			204,186
(5) Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.			
Change in compensated absences payable	\$	(26,556)

**Report on Internal Control Over Financial Reporting and on Compliance and
Other Matters Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards***

Independent Auditor's Report

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Franklin County's basic financial statements, and have issued our report thereon dated November 26, 2014. Our report includes a reference to other auditors who audited the financial statements of the Franklin County Emergency Communications District, as described in our report on Franklin County's financial statements. This report does not include the results of the other auditors testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Franklin County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Franklin County's internal control. Accordingly, we do not express an opinion on the effectiveness of Franklin County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to

prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a certain deficiency in internal control, described in the accompanying Schedule of Findings and Questioned Costs that we consider to be a significant deficiency: 2014-003.

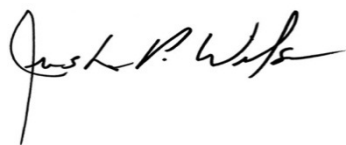

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Franklin County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and are described in the accompanying Schedule of Findings and Questioned Costs as items: 2014-001, 2014-002, and 2014-004.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Franklin County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Very truly yours,

Justin P. Wilson
Comptroller of the Treasury

Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on the Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

Independent Auditor's Report

Franklin County Mayor and
Board of County Commissioners
Franklin County, Tennessee

To the County Mayor and Board of County Commissioners:

Report on Compliance for Each Major Federal Program

We have audited Franklin County's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Franklin County's major federal programs for the year ended June 30, 2014. Franklin County's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Franklin County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and*

Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Franklin County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Franklin County's compliance.

Opinion on Each Major Federal Program

In our opinion, Franklin County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of Franklin County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Franklin County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Franklin County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we

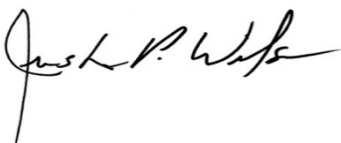

consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Franklin County, Tennessee, as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise Franklin County's basic financial statements. We issued our report thereon dated November 26, 2014, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Very truly yours,

Justin P. Wilson
Comptroller of the Treasury

FRANKLIN COUNTY, TENNESSEE

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

For the Year Ended June 30, 2014

PART I, SUMMARY OF AUDITOR'S RESULTS

1. Our report on the financial statements of Franklin County is unmodified.
2. The audit of the financial statements of Franklin County disclosed a significant deficiency in internal control. This deficiency was not considered to be a material weakness.
3. The audit disclosed no instances of noncompliance that are material to the financial statements of Franklin County.
4. The audit disclosed no significant deficiencies in internal control over major programs.
5. An unmodified opinion was issued on compliance for major programs.
6. The audit revealed no findings that are required to be reported under Section 510(a) of OMB Circular A-133.
7. The Child Nutrition Cluster: School Breakfast Program and National School Lunch Program (CFDA Nos. 10.553 and 10.555) and the Section 1033 Excess Property Program (CFDA No. 12.UNKNOWN) were determined to be major programs.
8. A \$300,000 threshold was used to distinguish between Type A and Type B federal programs.
9. Franklin County qualified as a low-risk auditee.

PART II, FINDINGS RELATING TO THE FINANCIAL STATEMENTS

Findings and recommendations, as a result of our examination, are presented below. We reviewed these findings and recommendations with management to provide an opportunity for their response; however, management did not provide responses for inclusion in this report.

OFFICE OF FINANCE DEPARTMENT

FINDING 2014-001 **EXPENDITURES EXCEEDED APPROPRIATIONS IN ONE MAJOR CATEGORY OF THE GENERAL FUND**
(Noncompliance Under *Government Auditing Standards*)

General Fund expenditures exceeded appropriations approved by the County Commission in the Correctional Incentive Program Improvements major appropriation category (the legal level of control) by \$41,423. Section 5-9-401, *Tennessee Code Annotated*, states that “All funds from whatever source derived, including, but not limited to taxes, county aid funds, federal funds, and fines, that are to be used in the operation and respective programs of the various departments, commissions, institutions, boards, offices and agencies of county governments shall be appropriated to such use by the county legislative bodies.” This deficiency exists because management failed to budget the proper amount for outstanding encumbrances on June 30, 2014.

RECOMMENDATION

Expenditures should be held within appropriations approved by the County Commission.

OFFICE OF DIRECTOR OF SCHOOLS

FINDING 2014-002 **THE EXTENDED SCHOOL PROGRAM DID NOT DEPOSIT SOME FUNDS WITHIN THREE DAYS OF COLLECTION**
(Noncompliance Under *Government Auditing Standards*)

As part of our audit procedures for obtaining reasonable assurance that Extended School Program funds were deposited with the county trustee within three days of collection as required by Section 5-8-207, *Tennessee Code Annotated*, we judgmentally selected the month of October to examine receipts and deposits at seven schools. The program office did not deposit some funds with the county trustee within three days of collection in nine of 36 deposits made during the month. This deficiency exists because management failed to correct the finding noted in the prior-year audit report. The delay in depositing funds weakens internal controls over collections and increases the risks of fraud and misappropriation.

RECOMMENDATION

Extended School Program funds should be deposited with the county trustee within three days of collection as required by state statute.

OFFICE OF COUNTY CLERK

FINDING 2014-003

DUTIES WERE NOT SEGREGATED ADEQUATELY

(Internal Control – Significant Deficiency Under *Government Auditing Standards*)

Duties were not segregated adequately among the official and employees in the Office of County Clerk. The official and employees responsible for maintaining accounting records were also involved in receipting, depositing, and/or disbursing funds. Accounting standards provide that internal controls be designed to give reasonable assurance of the reliability of financial reporting and of the effectiveness and efficiency of operations. This lack of segregation of duties is the result of management's decisions based on the availability of financial resources and is a significant deficiency in internal controls that increases the risk of unauthorized transactions. Also, this deficiency is the result of management's failure to correct the finding noted in the prior-year audit report.

RECOMMENDATION

The county clerk should segregate duties to the extent possible using available resources.

OFFICE OF CLERK AND MASTER

FINDING 2014-004

THE DOCKET TRIAL BALANCE DID NOT RECONCILE WITH GENERAL LEDGER ACCOUNTS

(Noncompliance Under *Government Auditing Standards*)

At June 30, 2014, the clerk and master had prepared a trial balance of execution docket cause balances as required by Section 18-2-103, *Tennessee Code Annotated (TCA)*. However, this trial balance did not reconcile with general ledger accounts by \$4,730. Therefore, we were unable to determine if the clerk and master had complied with provisions of the Unclaimed Property Act, Section 66-29-113, *TCA*. This statute provides that any funds held by the court for one year and unclaimed by the owner are considered abandoned. Section 66-29-113, *TCA*, further requires these funds to be reported and paid to the state Treasurer's Office. This deficiency exists due to the failure of management to identify all funds placed on deposit with the court.

RECOMMENDATION

The execution docket trial balance should be reconciled with general ledger accounts. Any funds held by the court for one year and unclaimed by the owner are considered abandoned

and should be reported and paid to the state Treasurer's Office in compliance with state statute.

**PART III, FINDINGS AND QUESTIONED
COSTS FOR FEDERAL AWARDS**

There were no findings and questioned costs for federal programs.

**FRANKLIN COUNTY, TENNESSEE
AUDITEE REPORTING RESPONSIBILITIES
For the Year Ended June 30, 2014**

There were no audit findings relative to federal awards presented in the prior- or current-years' Schedules of Findings and Questioned Costs.
